Dear [REDACTED]

REQUEST FOR OFFICIAL INFORMATION – RELEASE OF INFORMATION

Thank you for your request for information held by the Queenstown Lakes District Council (**QLDC**). On 22 May 2023 you requested the following information under the Local Government Official Information and Meetings Act 1987 (**LGOIMA**):

- Can I please request your support in providing me with the information related to resource consents decisions in the Rural Areas in your district? I would appreciate a breakdown of the resource consents based on different categories:
 - Resource Consent Number
 - Site Address
 - Property/Valuation Number
 - Decision Date Issued
 - Activity Status
 - Type of Activities - whether subdivision, land use or combine application
 - Zone- Rural Areas
 - LUC- Land Categories (if available)

QLDC response

Please see our response below.

Please see the two excel spreadsheet attached for all resource consents that intersect the interim highly productive land and a second with Resource Consents that intersect rural Zones, both spreadsheets only have consents with completion dates between January 2020 and present.

The spreadsheets include consent id's, physical address, property number, completion date, and a description of the activity as requested.

For the other fields requested in the LGOIMA including the zone and LUC category the consent falls within, we do not track this information.

To get these fields against the consents would require GIS analysis of the Resource Consents and is outside the scope of a LGOIMA.

You would be able to do the analysis by georeferencing the Resource Consents in the spreadsheets against the property number.

Data on our District Plan is available via the [Spatial Data hub](#), I have provided a Service URL to our “Proposed District Plan” data below:

https://gis.qldc.govt.nz/server/rest/services/DistrictPlan/PDP_Stage_1_2_3_Decisions/MapServer

We trust the above information satisfactorily answers the relevant components of your request.

Kind regards,
