CHOOSING A VERIFIER

All businesses subject to a National Programme (all levels) have the right to choose their own verifier. A verifier is the agency or person who will come and assess your business in order to demonstrate compliance with the Food Act 2014 and Food Regulations 2015.

Registration Authority

Your food business must be registered in order to legally operate. Most commonly, your registration authority will be your local council if your business operates solely within one district.

If your business operates over different council districts or operates from multiple sites, the Ministry for Primary Industries (MPI) may instead be your registration authority. Check with your local council or MPI if you are unsure who your registration authority should be.

Choosing a Verifier

You have the choice of selecting which agency you want to undertake your verifications. This may be your local council should they hold recognition or an independent (third party) organisation. A list of all recognised agencies can be found on MPI's website:

www.foodsafety.govt.nz/registers-lists/food-act-2014-recognised-agencies/index.htm

Conflicts of Interest

If any staff or contractors of the Council have been involved in the design of the customer's food site or procedures, it cannot act as the customer's verifier. The Council aims to undertake the agreed services in an independent and impartial manner at all times.

Template Food Control Plans registered with MPI

If you are operating a multi-site business using a template FCP, and have been required to register with MPI or another authority because you also operate outside the QLDC area, you may still choose to use QLDC as your verifier.

If you have registered a template FCP (whether modified or not) with MPI for a business required to operate a custom FCP, QLDC is not able to offer verification of custom FCPs.

Once you have chosen your verifier, you will need to inform your registration authority of your choice. Your verifier may ask you to complete an agreement to officially nominate them as your verifier.

Should you have any questions about choosing a verifier, please contact either Queenstown Lakes District Council or MPI on 0800 00 83 33.

2.1.3 The nature and extent of the Council’s procedures and processes may vary according to the type of business, risk assessment, and previous compliance history and the Council will focus on what is most important for the food safety at each type of business.

2.1.4 At the end of the verification, Council will provide the food business with an outcome report for the verification detailing whether the verification is acceptable or unacceptable.

2.2 If any issues are discovered, Council will agree with the food business on a plan to address those issues, including setting timeframes, and the timing of the next verification visit.

To the full extent permitted by law, and subject to the Council's obligation to comply with the provisions of the Local Government Official Information and Meetings Act 1987, the Council agrees to keep all such information and communications confidential.

5 COMPLAINTS AND DISPUTES

If the customer has a complaint in relation to the Council's verification services or the person conducting them or the customer disputes any recommendation put forward by the verifier, please contact The Regulatory Manager of Environmental Health. The Council documents all complaints in an attempt to improve its service under its Quality Management System. All complaints are held as strictly confidential. The customer may seek reconsideration of a verification decision by applying to the Council in writing within 15 working days after receipt of the verification report.

6 CUSTOMERS RESPONSIBILITIES

- 6.1 The customer must advise the Council of any change of verifier. This agreement can then be terminated with 1 month notice in writing to Council.
