

10 ARROWTOWN RESIDENTIAL HISTORIC MANAGEMENT ZONE

10.1

Zone Purpose

This zone covers the older part of the residential settlement of Arrowtown. The area has a distinctive character and atmosphere which has evolved from the development pattern set at the time of early gold mining in the District.

The purpose of this zone is to allow for the continued sensitive development of the historic area of residential Arrowtown in a way that will protect and enhance those characteristics that make it a valuable part of the town for local residents and for visitors attracted to the town by its historic associations and unique character.

In particular the zone seeks to retain the early subdivision pattern and streetscape, and ensure future development is of a scale and design sympathetic to the present character.

Unlike other residential zones, infill housing is not anticipated. However, as with the remainder of the District's residential zones, Residential Flats are provided for as a fundamental part of a standard residential unit to increase the diversity of residential accommodation in the zone as well as recognise the diverse household types and preferences within the District.

The Town Centre Transition Overlay provides for limited expansion of commercial activities in an identified location adjoining the town centre. Any modifications to existing buildings or properties are expected to retain the historical character and qualities of the Old Town Residential Area.
