

GET A GRIP THIS WINTER

with your snow chains!

WARM UP FOR WINTER WITH YOUR SNOW CHAINS

1

Check your chains are the right size for your tyres.

2

Check your vehicle's manual to see if your chains should go on the front, back, or all four tyres.

3

Keep a set of gloves in the car.

4

Keep something waterproof to kneel on in the car.

REMEMBER

Chains should only be used in unsafe conditions and when instructed to fit them by Police, ski field operators, or Queenstown Lakes District Council.

QUEENSTOWN
LAKES DISTRICT
COUNCIL

USING YOUR CHAINS CORRECTLY!

1

Check your chains have no tangles or knots before fitting them.

2

After putting chains on, drive 30 metres and then check if they need to be tightened.

3

The maximum speed with chains on is 30km/h.

4

When removing chains, hold the front in place to release the back.

5

Place chains on the ground, slowly drive forward to release chains and make sure the plastics parts are safe from being driven over.

6

After using chains, dry them prior to storing away.

Be safe, be prepared, and keep up to date on road conditions with QLDC's Winter Road Reports: www.qldc.govt.nz/winter-road-report

Write which tyres your chains go on here:
