

7 Lower Density Suburban Residential

7.1 Zone Purpose

The Lower Density Suburban Residential Zone is the largest residential zone in the District. The District Plan includes such zoning that is within the urban growth boundaries, and includes land that has already been developed - as well as areas that will continue to be developed over time.

Fundamentally the zone provides for both traditional and modern suburban densities and housing forms. Houses will typically be one to two storeys in height, detached and set on sites between 450 and 1000 square metres in area. In addition, and to help meet the needs of the community, the zone also enables increased density by allowing sites down to 300 square metres in area and larger comprehensively designed developments. In addition, non-subdividable residential flats that can be occupied by an independent household are enabled. The overall range of net household densities (including residential flats) could be as high as 1 unit per 150 square metres or as low as 1 unit per 1,000 square metres (or even less). The zone will help to provide a more diverse and affordable housing stock within the District.

Community activities are anticipated in the zone provided adverse effects can be suitably addressed, as these activities are often best located within the residential communities they serve. Home occupations are also provided for.

Commercial activities are generally not anticipated other than those that are residential-compatible and small-scale, however may be accommodated where necessary to address a demonstrated local need provided residential amenity is not compromised

Visitor accommodation is anticipated in the Visitor Accommodation Sub-Zones shown on the District Plan web mapping application, which have historically provided (and will continue to provide) important locations for visitor accommodation to meet the District's needs. The sub-zones are located in residential areas, and applications for visitor accommodation activities and associated development must address matters that impact on residential amenity, including character, traffic and noise effects. Visitor accommodation located outside of the Visitor Accommodation Sub-Zones is restricted.

The commercial letting of residential properties as short-term accommodation for paying guests on a year-round or permanent basis is restricted where it would result in a loss of residential character, cohesion and amenity values. Low intensity use of residential units, including residential flats, to accommodate paying guests is enabled where the predominant residential character of the environment is retained and the residential amenity values of nearby residents are maintained.

Visitor Accommodation is defined in the District Plan separately from accommodation activities involving paying guests occurring in residential units and residential flats, which are defined as Residential Visitor Accommodation and Homestay activities.

7.2 Objectives and Policies

7.2.1 Objective - Development within the zone provides for a mix of compatible suburban densities and a high amenity low density residential living environment for residents as well as users of public spaces within the zone.

PART 3 LOWER DENSITY SUBURBAN RESIDENTIAL 7

Policies

- 7.2.1.1 Ensure the zone and any development within it is located in areas that are well serviced by public infrastructure, and is designed in a manner consistent with the capacity of infrastructure networks.
- 7.2.1.2 Encourage an intensity of development that maximises the efficient use of the land in a way that is compatible with the scale and character of existing suburban residential development, and maintains suburban residential amenity values including predominantly detached building forms, and predominantly one to two storey building heights.
- 7.2.1.3 Ensure that the height, bulk and location of development maintains the suburban-intensity character of the zone, and maintains the amenity values enjoyed by users of neighbouring properties, in particular, privacy and access to sunlight.
- 7.2.1.4 Require, as necessary, all new buildings, relocated buildings and additions and alterations to existing buildings that contain an Activity Sensitive to Road Noise located adjacent to a State Highway to be designed to maintain internal residential amenity values and, in particular provide protection to sleeping occupants from road noise.
- 7.2.1.5 Require consideration of the relevant design elements identified in the Residential Zone Design Guide 2021.
- 7.2.1.6 Require buildings and development within Kawarau Heights to be:
- a. located in accordance with the Structure Plan contained in Section 27.13.15; and
 - b. consistent with the design outcomes sought by the Kawarau Heights Design Guidelines 2020.
- 7.2.1.7 Require all bedrooms within new or relocated buildings located within 250m of the Riverbank Road frost fan (as identified on the Riverbank Road Structure Plan contained in Section 27.13.18) to be designed to maintain internal residential amenity values and protection to sleeping occupants from frost fan noise.

7.2.2 Objective - Development of Activities Sensitive to Aircraft Noise is limited within the Queenstown Airport Air Noise Boundary and Outer Control Boundary in recognition of the amenity (noise) constraints now and also likely in the foreseeable future as a result of its increasing intensity of operation and use.

Policies

- 7.2.2.1 Discourage the creation of any new sites or infill development for Activities Sensitive to Aircraft Noise within the Air Noise Boundary and between the Air Noise Boundary and the Outer Control Boundary on land around Queenstown Airport.
- 7.2.2.2 Require, as necessary, mechanical ventilation of any Critical Listening Environment within new buildings, relocated buildings, and any alterations and additions to existing buildings that contain an Activity Sensitive to Aircraft Noise within the Queenstown Airport Outer Control Boundary.
- 7.2.2.3 Require, as necessary, sound insulation and mechanical ventilation of any Critical Listening Environment within new buildings, relocated buildings, and any alterations and

PART 3 LOWER DENSITY SUBURBAN RESIDENTIAL 7

additions to existing buildings that contain an Activity Sensitive to Aircraft Noise within the Queenstown Airport Air Noise Boundary.

7.2.3 Objective - Encourage higher density development where it responds sensitively to the context and character of the locality and is designed to maintain local amenity values.

Policies

- 7.2.3.1 Encourage densities higher than 1:450 square metres per residential unit where this is designed to fit well with the immediate context, with particular significance attached to the way the development:
- a. manages dominance effects on neighbours through measures such as deeper setbacks, sensitive building orientation and design, use of building articulation and landscaping;
 - b. achieves a reasonable level of privacy between neighbours through measures such as deeper boundary setbacks, offsetting habitable room windows that face each other, or the use of screening devices or landscaping;
 - c. provides activation of streets through the placement of doors, windows and openings that face the street.
- 7.2.3.2 Limit building height on sites smaller than 900 square metres that are proposed to be developed for two or more principal units (i.e. excluding residential flats) so as to mitigate a reduction in spaciousness around and between buildings that otherwise forms part of suburban residential amenity values.
- 7.2.3.3 Encourage landscaped areas to be well-designed and integrated into the development layout and design, providing high amenity spaces for recreation and enjoyment, having particular regard to the visual amenity of streets and street frontages.
- 7.2.3.4 Provide for higher density development within Kawarau Heights that is consistent with the design outcomes sought by the Kawarau Heights Design Guidelines 2020.

7.2.4 Objective - Residential development in Arrowtown compatible with the town's existing character

Policies

- 7.2.4.1 Ensure development, including infill housing, community activities and commercial development is of a form that is compatible with the existing character of Arrowtown, guided by the Arrowtown Design Guidelines 2016, with particular regard given to:
- a. building design and form;
 - b. scale, layout and relationship of buildings to the street frontage(s);
 - c. materials and landscape response(s).
- 7.2.4.2 Avoid flat roofed dwellings in Arrowtown.

PART 3 LOWER DENSITY SUBURBAN RESIDENTIAL 7

7.2.5 Objective - Community activities serving the needs of people within the zone locate within the zone on sites where adverse effects are compatible with residential amenity values.

Policies

- 7.2.5.1 Enable the establishment of community activities where adverse effects on residential amenity values including noise, traffic, lighting, glare and visual impact can be avoided, remedied or mitigated.
- 7.2.5.2 Ensure any community activities occur in areas which are capable of accommodating traffic, parking and servicing to a level which maintains residential amenity values.
- 7.2.5.3 Ensure any community activities are of a design, scale and appearance compatible with a residential context.

7.2.6 Objective - Development efficiently utilises existing infrastructure and minimises impacts on infrastructure networks.

Policies

- 7.2.6.1 Ensure access and vehicle parking is located and designed to optimise safety and efficiency of the road network and minimises impacts on on-street vehicle parking.
- 7.2.6.2 Ensure development is designed consistent with the capacity of existing infrastructure networks and, where practicable, incorporates low impact approaches to stormwater management and efficient use of potable water.
- 7.2.6.3 Integrate development with all transport networks and in particular, and where practicable, improve connections to public transport services and active transport networks (tracks, trails, walkways and cycleways).

7.2.7 Objective - Commercial development in the zone is small scale and generates minimal amenity value impact

Policies

- 7.2.7.1 Provide commercial activities, including home occupation activities, that directly serve the day-to-day needs of local residents, or enhance social connection and vibrancy of the residential environment, provided these do not undermine residential amenity values or the viability of any nearby centre.
- 7.2.7.2 Ensure that any commercial development is of low scale and intensity, and does not undermine the local transport network or availability of on-street vehicle parking for non-commercial use.
- 7.2.7.3 Ensure that the noise effects from commercial activities are compatible with the surrounding environment and residential amenity values.
- 7.2.7.4 Ensure that commercial development is of a design, scale and appearance that is compatible with its surrounding residential context.

7.2.8 Objective - Visitor accommodation, residential visitor accommodation and homestays are enabled at locations, and at a scale, intensity and frequency, that maintain the residential character and amenity values of the zone.

PART 3 LOWER DENSITY SUBURBAN RESIDENTIAL 7

Policies

- 7.2.8.1 Provide for visitor accommodation and residential visitor accommodation in the Visitor Accommodation Sub-Zones that are appropriate for the low density residential environment, ensuring that adverse effects on residential amenity values are avoided, remedied or mitigated.
- 7.2.8.2 Restrict the establishment of visitor accommodation in locations outside the Visitor Accommodation Sub-Zones to ensure that the zone maintains a residential character.
- 7.2.8.3 Ensure that residential visitor accommodation and homestays are of a scale and character that are compatible with the surrounding residential context and maintain residential character and amenity values.
- 7.2.8.4 Provide opportunities for low intensity residential visitor accommodation and homestays as a contributor to the diversity of accommodation options available to visitors and to provide for social and economic wellbeing.
- 7.2.8.5 Manage the effects of residential visitor accommodation and homestays outside the Visitor Accommodation Sub-Zone by controlling the scale, intensity and frequency of use and those effects of the activities that differentiate them from residential activities.

7.3 Other Provisions and Rules

7.3.1 District Wide

Attention is drawn to the following District wide chapters.

1. Introduction	2. Definitions	3. Strategic Direction
4. Urban Development	5. Tangata whenua	6. Landscapes & Rural Character
25. Earthworks	26. Historic Heritage	27. Subdivision
28. Natural Hazards	29. Transport	30. Energy and Utilities
31. Signs	32. Protected Trees	33. Indigenous Vegetation
34. Wilding Exotic Trees	35. Temporary Activities & Relocated Buildings	36. Noise
37. Designations	District Plan web mapping application	

7.3.2 Interpreting and Applying the Rules

- 7.3.2.1 A permitted activity must comply with all the rules listed in the Activity and Standards tables, and any relevant district wide rules, otherwise a resource consent will be required.
- 7.3.2.2 Where an activity does not comply with a Standard listed in the Standards tables, the activity status identified by the Non-Compliance Status column shall apply.
- 7.3.2.3 Where an activity breaches more than one Standard, the most restrictive status shall apply to the Activity.

PART 3 LOWER DENSITY SUBURBAN RESIDENTIAL 7

- 7.3.2.4 Proposals for development resulting in more than one (1) residential unit per site shall demonstrate that each residential unit is fully contained within the identified net area for each unit.
- 7.3.2.5 Each residential unit may include a single residential flat and any other accessory buildings.
- 7.3.2.6 References to the Visitor Accommodation Sub-Zones in this Chapter only apply to the sub-zones within the Lower Density Suburban Residential Zone.
- 7.3.2.7 The status of any Plantation Forestry will be determined by the Resource Management (National Environmental Standards for Plantation Forestry) Regulations 2017.
- 7.3.2.8 For sites in Kawarau Heights (as identified in the Structure Plan in Section 27.13.15), the Kawarau Heights Design Guidelines 2020 apply, instead of the Residential Zone Design Guide 2019.
- 7.3.2.9 The following abbreviations are used within this Chapter.

P – Permitted	C – Controlled	RD – Restricted Discretionary
D – Discretionary	NC – Non – Complying	PR - Prohibited

- 7.3.2.9A Compliance with the New Zealand Electrical Code of Practice for Electrical Safe Distances ("NZECP34:2001") is mandatory under the Electricity Act 1992. All activities, such as buildings, earthworks and conductive fences regulated by NZECP34:2001, including any activities that are otherwise permitted by the District Plan must comply with this legislation. Chapter 30 Energy and Utilities part 30.3.3.2.c has additional information in relation to activities and obligations under NZECP34:2001.
- 7.3.2.10 For sites in Arrowtown, the Arrowtown Design Guidelines 2016 apply, instead of the Residential Zone Design Guide 2021.

7.4 Rules - Activities

	Activities located in the Lower Density Suburban Residential Zone	Activity status
7.4.1	Home occupations	P
7.4.2	Informal airports for emergency landings, rescues and fire fighting	P
7.4.3	Residential units, where the density of development does not exceed <ul style="list-style-type: none"> i. one residential unit per 450m² net area; or ii. one residential unit per 800m² net area at Lake Hāwea South within Area B as identified in the Structure Plan in 27.13.19. 	P
7.4.4	Hospital at the 'Lakes District Hospital Site' shown on the District Plan web mapping application	P
7.4.5	Homestays	P

PART 3 LOWER DENSITY SUBURBAN RESIDENTIAL 7

	Activities located in the Lower Density Suburban Residential Zone	Activity status
7.4.6	Residential Visitor Accommodation	P
7.4.6A	<p>Visitor Accommodation in the Visitor Accommodation Sub-Zone</p> <p>Discretion is restricted to:</p> <ul style="list-style-type: none"> a. The location, nature and scale of activities; b. Parking and access; c. Landscaping; d. Noise generation and methods of mitigation; e. Hours of operation, including in respect of ancillary activities; and f. The external appearance of buildings. 	RD
7.4.7	<p>Commercial activities – 100m² or less gross floor area Discretion is restricted to:</p> <ul style="list-style-type: none"> a. benefits of the commercial activity in servicing the day-to-day needs of local residents; b. hours of operation; c. parking, traffic and access; d. noise; e. design, scale and appearance; f. in Arrowtown, consistency with Arrowtown’s character, as described within the Arrowtown Design Guidelines 2016; and g. where a site is subject to any natural hazard and the proposal results in an increase in gross floor area: <ul style="list-style-type: none"> i. the nature and degree of risk the hazard(s) pose to people and property; ii. whether the proposal will alter the risk to any site; and iii. the extent to which such risk can be avoided or sufficiently mitigated. 	RD

PART 3 LOWER DENSITY SUBURBAN RESIDENTIAL 7

	Activities located in the Lower Density Suburban Residential Zone	Activity status
