Hello,

I am emailing you because I strongly feel that, in light of the revision by the developer dated 17th October, there is no longer enough time for my wife and I to review, analyse and respond to the revised submissions/evidence.

I do not believe the process being rushed like this is fair. We need to be given the opportunity to take time over something which will impact our lives so hugely.

I also do not feel that the commissioners are being given enough time to thoroughly consider everything when neither side are being given sufficient time to consider the evidence.

Kind regards

Nathan Pringle
