Leisurelys Class Descriptions

AQUAFIT: Add water to your workout with a water-based class especially for active seniors. AquaFit is a great way to improve aerobic fitness and develop strength without the impact, making it easier on muscles and joints.

BODYVIVE: If you are up for a little challenge, give BodyVive a go. An all-round low-impact workout that lets you choose just how hard you work. Targeting cardio fitness, strength and flexibility, and you don't need to be fit; just physically active and able to move freely.

PILATES: One of the best forms of exercise for overall conditioning, toning and relaxation. Designed to help build flexibility, strength, endurance and coordination while strengthening your core and torso, and increasing circulation.

GOLF: Warm summer months provide a perfect opportunity to have a go at golf. The Frankton Golf Centre offers a 9-hole course and a great driving range, perfect for a casual morning of golf. Jamie will be there to help.

GYM: Have a go at using our quality gym equipment while working on cardiovascular fitness and strength. We'll show you how the gadgets work if you don't already know. Bookings essential.

RPM: RPM is an indoor cycling workout, where you ride to the rhythm of music. Take on the terrain as your inspiring coach leads you through different tracks. Bookings essential.

STRETCH: Gently stretch the muscles you didn't know you had. Our stretch classes help increase flexibility, reduce injury and improve mobility.

TAI CHI: Designed to improve mobility, flexibility and balance, Tai Chi involves a series of slow, fluid, gentle movements based on an ancient form of exercise practiced for hundreds of years. Tai Chi has been shown to promote relaxation and prevent falls through improvement in balance, reactions and lower limb strength.
