Subject: QLDCPDP Clutha River/ Mata Au ONF s293 Submission.
Date: Tuesday, 28 September 2021 5:15:05 PM

I am sending this submission on behalf of Corbridge Estates Limited Partnership.

As we are one of the farms on the river corridor identified as Block IV Lower Wanaka SD.

Corbridge has two tracks that it maintains to access the north western corner and the south eastern corners of this block. The south eastern corner needs to be accessed for rabbit, wilding pine broom control etc. control and likewise at the north eastern corner.

We regularly send a digger down these tracks to maintain them. It is an unreasonable expectation that we will apply for consents to undertake this work which we have been doing for the past ten years. This part of the farm is not farmed for commercial purposes but it is essential as a barrier for pests.

Thank You

Peter Marshall
