Context | Horopaki

1. This report provides an update on the progress with the District Plan Review, which commenced in 2015. The Council made the decision to review the Operative District Plan in stages, and then this approach turned into a rolling review. This is a resource heavy process which means at any time the Planning Policy team are undertaking District Plan monitoring, developing new or amended provisions, preparing for and participating in Council hearings and defending Council's position in the Environment Court.
2. This report provides a summary of progress on the Proposed District Plan and provides indications of existing and future workstreams. The report also provides summary on progress on other projects undertaken by the Planning Policy Team.
3. The key workstreams of the team can be summarised as deriving from the following requirements:
 - Reviewing the Operative District Plan in a timely manner and in accordance with statutory requirements, and providing statutory support to other Council direction, such as the Climate & Biodiversity Plan, Joint Housing Action Plan, and the Mode Shift Plan;
 - Giving effect to central government direction – such as the National Policy Statement – Urban Development and National Planning Standards;
 - Implementing the Spatial Plan through variations to the Proposed District Plan;
 - Consistency and giving effect to the Otago Regional Policy Statement(s) (RPS) including participating in the 1st schedule process for the RPS ;
 - Making complicated processes easier for the public and using opportunities to provide technology assistance (including EPlan, implementing the National Planning Standards, preparing guidance material to assist plan users, and providing a duty planner service); and
 - Processing Private Plan Changes.

Analysis and Advice | Tatāritaka me kā Tohutohu

4. **Attachment A** is a table that provides progress updates on the Team's key work streams.
5. The activities occurring in relation to the Environment Court appeals are in accordance with the guidelines and parameters set by the Planning & Strategy Committee or Appeals Subcommittee.
6. This report assists elected members, stakeholders and the community to understand the future work programme and interrelationships of the work being undertaken.

Consultation Process | Hātepe Matapaki

Significance and Engagement | Te Whakamahi i kā Whakaaro Hiraka

7. This matter is of medium significance as determined by reference to the Council's Significance and Engagement Policy because it is a matter relating to the administration of Council affairs.

8. The persons who are affected by or interested in the District Plan Review and related projects are residents/ratepayers of the Queenstown Lakes District community. Particular individuals and entities affected have opportunities to participate in plan development and pre-notification consultation, submitting on the notified provisions and participating in hearings, appealing the decisions and joining the appeals.

Māori Consultation | Iwi Rūnaka

9. Consultation with tangata whenua under the Resource Management Act 1991 (RMA) is a legal requirement before notifying a district plan and it is noted that legal requirements are being met on an on-going basis, and that many of these matters will not be relevant to, or require specific consultation with, tangata whenua.
10. It is also noted that meaningful iwi consultation beyond the minimum will be undertaken where possible as it is generally best practice and can lead to a stronger understanding of the issues, and result in better environmental outcomes.
11. This is an update report, so no consultation on the contents of this report is required.

Risk and Mitigations | Kā Raru Tūpono me kā Whakamaurutaka

12. This matter relates to the Strategic/Political/Reputation risk category. It is associated with RISK10056 Ineffective provision for the future planning and development needs of the district within the Queenstown Lakes District Council Risk Register. This risk has been assessed as having a moderate residual risk rating.
13. Measures have been put in place to implement to manage any risk as required for each project for the district plan review. This will be achieved by putting measures in place, which directly reduce the risk.

Financial Implications | Kā Riteka ā-Pūtea

14. There are no new operational and capital expenditure requirements additional to existing approved budget in the Annual/Long Term Plan as a result of items in this report. The continuation of the projects undertaken by the Planning Policy team can be implemented through current funding under the Long Term Plan and Annual Plan.

Council Effects and Views | Kā Whakaaweawe me kā Tirohaka a te Kaunihera

15. The consistency of these matters with Council effects and views, policies, strategies and bylaws will be covered under separate agenda items where appropriate.
16. The following Council policies, strategies and bylaws were considered:

- Operative District Plan
- Proposed District Plan
- Spatial Plan/Future Development Strategy
- Climate & Biodiversity Plan
- Joint Housing Action Plan
- Mode Shift Plan

17. This matter is included in the Long Term Plan/Annual Plan.

Legal Considerations and Statutory Responsibilities | Ka Ture Whaiwhakaaro me kā Takohaka Waeture

18. There are particular legal considerations that need to be taken into account under the RMA in relation to undertaking a 1st Schedule process to create or amend a District Plan. Where needed legal advice is taken and reported to the Planning & Strategy Committee directly or within the associated report.

Local Government Act 2002 Purpose Provisions | Te Whakatureture 2002 o te Kāwanataka ā-Kiaka

19. Section 10 of the Local Government Act 2002 states the purpose of local government is (a) to enable democratic local decision-making and action by, and on behalf of, communities; and (b) to promote the social, economic, environmental, and cultural well-being of communities in the present and for the future. The Proposed District Plan provides a framework for the future development communities in the Queenstown Lakes District, contributing to their wellbeing. As such, the recommendation in this report is appropriate and within the ambit of Section 10 of the Act.

20. The review of the District Plan:

- Can be implemented through current funding under the Long Term Plan and Annual Plan;
- Is consistent with the Council's plans and policies; and
- Would not significantly alter the intended level of service provision for any significant activity undertaken by or on behalf of the Council or transfer the ownership or control of a strategic asset to or from the Council.

Section 293 – Bunker and Rouse “Sticky Forest”		
Stage 1 Proposed District Plan	This Section 293 application arises from the Court’s second interim decision that addressed the appropriate zoning of decision of a site in Hāwea/Wānaka Sticky Forest known locally as “Sticky Forest”.	The Environment Court has issued directions for a Section 293 application to be publicly notified. Under section 293 of the RMA, to enable consideration of a change from Rural Zone to a Large Lot Residential Area A Zone, an amended Urban Growth Boundary (<i>UGB</i>), changes to the provisions, and other consequential changes affecting the south western strip of land within Hāwea / Wānaka Sticky Forest (the <i>Remnant Area</i>). Submissions opened on 9 of May and closed on 23 June 2023. 3 submissions were received and summarised for the Environment Court.
Variations Currently being Processed & Status		

Landscape Schedules - Priority Landscapes Notified June 2022	This proposal is a variation to Chapter 21 Rural Zone of the PDP, to introduce landscape schedules 21.22 and 21.23.	A decision has been ratified by the Council on 6 June. Council received 16 appeals (and one late appeal pending confirmation) on the PA Variation and a number of s274 notices. 2 appeals have now been resolved by consent order [UCT Properties Limited and Alpine Deer Holdings LP and Treespace No1 Limited Partnership]. All other appeals have now been through Court-assisted mediation. The issues raised by the appeals cover a broad range of topics including the preambles to the schedules, changes to specific landscape schedules and process issues. Other issues raised by the appeals include the mapping of PA boundaries and ONL/F boundaries, methodology, legal weighting and potential for higher order policy and consequential changes. A preliminary decision from the Environment Court confirmed that it is beyond jurisdictional scope to pursue any changes or removal of mapped ONF/Ls or RCL overlays. The Environment Court confirmed that it was otherwise within scope to see any specific areas of land to be excluded from specified Priority Areas. The Mount Alpha Schedule 21.22.19 is still under appeal and resolution may be required from an Environment Court Hearing. The notice of appeal seeks amendments to the ONL classification and PA classification of Hawthens land (noting that the ONL amendment has been determined to be out of scope in accordance with the Preliminary decision).
Urban Intensification Variation Notified August 2023	This proposal seeks to amend the PDP by increasing heights and densities in some zones in the Urban environment as well as rezoning land close to the commercial areas in Queenstown, Frankton and Wānaka to enable intensification of development. The proposed variation also	Commissioners were appointed and hear the submitters who wanted to speak to their submissions over 3 weeks in 3 venues (Arrowtown, Wanaka and Queenstown). David Allen (Chair) Ian Munro Lyal Cocks Council's reply is due on 25 September 2025 to respond to new evidence presented at the hearing and to answer questions of the panel. Following the receipt of that information the commissioners will prepare their recommendation to Council.

	includes amendments to planning provisions to recognise the benefits of intensification; to ensure adequate amenity values are provided for within intensification areas; and to ensure that intensification can be serviced. The proposed amendments to planning provisions would apply to the following PDP chapters: • Chapter 2 – Definitions • Chapter 4 – Urban Development • Chapter 7 - Lower Density Suburban Residential Zone • Chapter 8 – Medium Density Residential Zone • Chapter 9 - High Density Residential Zone • Chapter 12 - Queenstown Town Centre Zone • Chapter 13 - Wānaka Town Centre Zone • Chapter 15 – Local Shopping Centre Zone • Chapter 16 - Business Mixed Use Zone	Council will need to ratify the recommendation as a Council decision; this is anticipated to be at the end of 2025 or early 2026 depending on timing of establishing a new Council (following the election) and the timing of receiving the recommendation. This Variation is not affected by “Plan Stop”.

	• Chapter 27 – Subdivision and Development	
Landscape Schedules - Upper Clutha Landscapes	This proposal is a variation to Chapter 21 Rural Zone of the PDP, to apply landscape schedules to the Upper Clutha Rural Character Landscapes and the Clutha Mata-au ONL.	The Upper Clutha Landscape Schedules Variation was renotified on 15 November 2024. Submissions closed on 13 December 2024. 50 submissions were received, with two submitters indicating that their submissions would be withdrawn (which would account for 48 in total). A summary of decisions requested has been notified for further submissions on 20 February 2025 and was open for further submissions until 7 March 2025. Commissioners have been appointed to hear the submission on this Variation: Peter Kensington (Chair) Richard Blakely Quentin Smith An email has been sent out to all submitters noting that the hearing has been postponed until there is more certainty around “plan stop” and any applications to the Minister.
Final Stage – District Plan Review		
Special Zones Review	The following special zones are scheduled to be reviewed in 2024 – they are the remaining chapters of the Operative District Plan to be brought into the Proposed District Plan. • Arrowtown South • Meadow Park • Bendemeer Park • Frankton Flats A • Frankton Flats B • Remarkables Park • Kingston Village	Monitoring reports, background research and options analysis are being undertaken. A consultation approach (strategy) with key stakeholders is being created. A Councillor workshop was held on 1 July 2025 to update the elected members on progress and seek direction as to the resource management issues and options for the review. A webpage has been set up to outline progress on the review of the Special Zones. QLDC - Special Zones Review A dedicated email address has been created, community members or interested parties are invited to email and be updated on progress on this project: qldcspecialzonesreview@qldc.govt.nz

	• Mount Cardrona Station • Penrith Park • Quail Rise Zone • Shotover Country • Plan Change 50/Queenstown Town Centre Extension • Northlake	Council staff are assessing which parts of this part of the District Plan review may be suitable for an exemption by the Minister. An application to the Minister will then be made within the 90-working day period.
Wāhi Tūpuna Layers	At the time of notification Wāhi Tūpuna were only applied to the Proposed District Plan.	Officers' will seek Council's strategic steer and guidance on an upcoming full council workshop (1st July) on recommended broad zoning options for nine special zones as they aim to bring these zones into the PDP through the standard plan-making process. In addition to seeking strategic steer on the broad options and pre-consultation; the officers will provide the Council with the information and update on bringing in the remaining Wāhi Tūpuna sites into the Plan - because the special zones do not have Wāhi Tūpuna overlay currently applying to them. Officers are partnering with the Rūnaka planners, and they have planned an engagement as to the best approach and methodology to bring this overlay to the remaining Special zones. Currently being assessed as to the influence of "Plan Stop".
Spatial Plan Priority Areas Rezoning	Te Tapuae Southern Corridor - Draft Structure Plan	Supporting the Spatial Planning team to create a Structure Plan. The Structure Plan was ratified by the Council on 4 September. Council staff are preparing a request for an exemption by the Minister. An application to the Minister will then be made within the 90-working day period.

	Frankton Priority Area	Currently being undertaken as part of the Special Zones review (Remarkables Park Zone, Frankton Flats A & B zones) and implementation of the Spatial Plan.
Amendments to support and provide a statutory weight for Council policies.	Climate and Biodiversity Strategy Travel Demand Management	Research and cost/benefit analysis being undertaken.
Natural Hazards	Gorge Road Glenorchy	Research and preparation of changes/variations to the Proposed District Plan (if required)
The Hills Private Plan Change	The Hills Special Zone	A private plan change has been received which seeks the following: 1. To ensure amendments to the location of Activity Areas arising from design changes to the golf course are reflected in the Structure Plan and provisions for the Zone; and 2. To provide limited additional residential activity and additional recreational amenity for residents and guests of the resort. The proposed change will be processed in accordance with the Act, and a subsequent agenda item will be presented to P&S in order to provide delegations for any next steps in the process (accept, reject, adopt, process as a resource consent). The P&S committee resolved to accept the Private Plan Change at its meeting on 23 June 2025. The Council has 3 months to notify the Private Plan Change. The Private Plan Change will be publicly notified on 15 August 2025. Submissions are due on 11 September 2025.

Other Projects

Making the Proposed District Plan Operative

An important step in the plan making process is making provisions formally operative in accordance with Clause 17(1) of the 1st schedule. Essentially this means that provisions can be relied on in their entirety. Up until that formal point, planners rely on Clause 86F (as there are no outstanding submissions or appeals to a provision). This point also makes the commencement of the 10 year “clock” where provisions need to be reviewed within 10 years of becoming operative.

A requirement of the Te Pūtahi Ladies Mile Streamlined Planning Process is for the provisions (if confirmed by the Ministry of the Environment) to be made operative. As significant parts of the Proposed District Plan are no longer subject to appeal, whole chapters are now able to be made operative. Operative status makes the implementation of the plan much easier. A careful analysis will be undertaken to ensure that operative status only applies to the provisions that are no longer subject to appeal or amendment.

The Te Pūtahi Ladies Mile Variation has been made formally operative; all affected provisions are marked on the Eplan. Significant additional parts of the Proposed District Plan will be made operative as soon as possible.

Gorge Road Hazards

Queenstown Lakes District Council (QLDC) has been investigating risk from natural hazards (rockfall and debris flow risk) in the Brewery Creek and Reavers Lane areas. Assessments show there are a range of risk levels in these areas, with elevated levels of risk in some places.

Council staff are now working on a further work programme to inform if and where the different elements recommended by the preferred response package will be applied and next steps for this project.

Council has engaged Beca to undertake additional fieldwork in the area to further understand the nature of the natural hazards present.

It is noted that this project is different from the post 2023 storm event cleanup which was not directly attributed to the natural hazards.

Glenorchy Natural Hazards

In the event that any planning implications arise from this project – i.e changes to the District Plan, then a project plan, resourcing and plan change process will be undertaken.
