# 24. Wakatipu Basin

## 24.1 Zone Purpose

This chapter applies to the Wakatipu Basin Rural Amenity Zone (Rural Amenity Zone) and its sub-zone, the Wakatipu Basin Lifestyle Precinct (Precinct). The purpose of the Zone is to maintain and enhance the character and amenity of the Wakatipu Basin. Schedule 24.8 divides the Wakatipu Basin into 23 Landscape Character Units. The Landscape Character Units are a tool to assist identification of the particular landscape character and amenity values sought to be maintained and enhanced. Controls on the location, nature and visual effects of buildings are used to provide a flexible and design led response to those values.

The purpose of defining the Precinct is to identify areas within the broader Rural Amenity Zone that have the potential to absorb rural living and other development, while still achieving the overall purpose of the Rural Amenity Zone. The balance of the Rural Amenity Zone is less enabling of development, while still providing for a range of activities suitable for a rural environment.

While the Rural Amenity Zone does not contain Outstanding Natural Features or Landscapes, it is a distinctive and high amenity value landscape located adjacent to, or nearby to, Outstanding Natural Features and Landscapes. There are no specific setback rules for development adjacent to Outstanding Natural Features or Landscapes. However, all buildings except small farm buildings and subdivision require resource consent to ensure that inappropriate buildings and/or subdivision does not occur adjacent to those features and landscapes. Buildings and development in the Zone and the Precinct are required to be set back from Escarpment, Ridgeline and River Cliff Features shown on the planning maps, to maintain the distinctive and high amenity landscapes of the Wakatipu Basin.

## 24.2 Objectives and Policies

Objectives 24.2.1 to 24.2.4 and related policies apply to the Precinct and to the balance of the Rural Amenity Zone. Objective 24.2.5 and related policies apply to the Precinct only.

### 24.2.1 Objective - Landscape character and visual amenity values in the Wakatipu Basin Rural Amenity Zone are maintained or enhanced.

#### Policies

- 24.2.1.1 Require an 80 hectare minimum net site area be maintained within the Wakatipu Basin Rural Amenity Zone outside of the Precinct.
- 24.2.1.2 Ensure subdivision and development is designed (including accessways, services, utilities and building platforms) to minimise inappropriate modification to the natural landform.
- 24.2.1.3 Ensure that subdivision and development maintains or enhances the landscape character and visual amenity values identified in Schedule 24.8 - Landscape Character Units.
- 24.2.1.4 Maintain or enhance the landscape character and visual amenity values associated with the Rural Amenity Zone including the Precinct and surrounding landscape context by:

- a. controlling the colour, scale, form, coverage, location (including setbacks from boundaries) and height of buildings and associated infrastructure, vegetation and landscape elements;
  - b. setting development back from Escarpment, Ridgeline and River Cliff Features shown on the planning maps.
- 24.2.1.5 Require all buildings to be located and designed so that they do not compromise the landscape and amenity values and the natural character of Outstanding Natural Features and Outstanding Natural Landscapes that are either adjacent to the building or where the building is in the foreground of views from a public road or reserve of the Outstanding Natural Landscape or Outstanding Natural Feature.
- 24.2.1.6 Provide for farming, commercial, community, recreation and tourism related activities that rely on the rural land resource, subject to maintaining or enhancing landscape character and visual amenity values.
- 24.2.1.7 Locate, design operate and maintain regionally significant infrastructure so as to seek to avoid significant adverse effects on the character of the landscape, while acknowledging that location constraints and/or the nature of the infrastructure may mean that this is not possible in all cases.
- 24.2.1.8 In cases where it is demonstrated that regionally significant infrastructure cannot avoid significant adverse effects on the character of the landscape, such adverse effects shall be minimised.
- 24.2.1.9 Control earthworks and vegetation clearance to minimise adverse effects on landscape character and visual amenity values.
- 24.2.1.10 Enable residential activity within building platforms created prior to 21 March 2019 subject to achieving appropriate standards.
- 24.2.1.11 Provide for activities, whose built form is subservient to natural landscape elements and that, in areas Schedule 24.8 identifies as having a sense of openness and spaciousness, maintain those qualities.
- 24.2.1.12 Manage lighting so that it does not cause adverse glare to other properties, roads, public places or degrade views of the night sky.
- 24.2.1.13 Have regard to the spiritual beliefs, cultural traditions and practices of Tangata Whenua in the manner directed in Chapter 5: Tangata Whenua.

**24.2.2 Objective – Non-residential activities maintain and enhance amenity values.**

**Policies**

- 24.2.2.1 Ensure traffic, noise and the scale and intensity of non-residential activities do not have an adverse impact on landscape character and amenity values that is more than minor, or affect the safe and efficient operation of the roading and trail network or access to public places.
- 24.2.2.2 Restrict the type and intensity of non-residential activities to those which are compatible in relation to generated effects (e.g. traffic, noise, and hours of operation) with surrounding uses and the natural environment.
- 24.2.2.3 Ensure non-residential activities other than farming, with the potential for nuisance effects from dust, visual, noise or odour effects, are located a sufficient distance from formed roads, neighbouring properties, waterbodies and any residential activity.

24.2.2.4 Ensure informal airports are located, operated and managed to maintain the surrounding rural amenity.

**24.2.3 Objective – Reverse sensitivity effects are avoided or mitigated where rural living opportunities, visitor and tourism activities, community and recreation activities occur.**

**Policies**

24.2.3.1 Ensure informal airports are not compromised by the establishment of incompatible activities.

24.2.3.2 Ensure reverse sensitivity effects on rural living and non-residential activities are avoided or mitigated.

24.2.3.3 Support productive farming activities such as agriculture, horticulture and viticulture in the Zone by ensuring that reverse sensitivity issues do not constrain productive activities.

24.2.3.4 Ensure non-farming activities with potential for nuisance effects from dust, visual, noise or odour effects are located a sufficient distance from formed roads, neighbouring properties, waterbodies and any residential activity.

**24.2.4 Objective – Subdivision and development, and use of land, maintains or enhances water quality, ecological quality, and recreation values while ensuring the efficient provision of infrastructure.**

**Policies**

24.2.4.1 Avoid adverse cumulative impacts on ecosystem services and nature conservation values.

24.2.4.2 Restrict the scale, intensity and location of subdivision, development and use of land in the Lake Hayes catchment, unless it can occur consistently with improvement to water quality in the catchment.

24.2.4.3 Provide for improved public access to, and the maintenance and enhancement of, the margins of waterbodies including Mill Creek and Lake Hayes.

24.2.4.4 Provide adequate firefighting water and emergency vehicle access to ensure an efficient and effective emergency response.

24.2.4.5 Ensure development has regard to servicing and infrastructure costs that are not met by the developer.

24.2.4.6 Facilitate the provision of walkway and cycleway networks and encourage opportunities for the provision of bridle path networks.

24.2.4.7 Ensure traffic generated by non-residential development does not individually or cumulatively compromise road safety or efficiency.

24.2.4.8 Encourage the removal of wilding exotic trees at the time of development.

24.2.4.9 Encourage the planting, retention and enhancement of indigenous vegetation that is appropriate to the area and planted at a scale, density, pattern and composition that contributes to native habitat restoration, particularly in locations such as gullies and riparian areas, or to provide stability.

**24.2.5 Objective – Rural living opportunities in the Precinct are enabled, provided landscape character and visual amenity values are maintained or enhanced.**

Objective 24.2.5 and policies 24.2.5.1 to 24.2.5.6 apply to the Precinct only. In the event of a conflict between Objective 24.2.5 and Objectives 24.2.1 to 24.2.4, Objective 24.2.5 prevails.

**Policies**

- 24.2.5.1 Provide for rural living, subdivision, development and use of land where it maintains or enhances the landscape character and visual amenity values identified in Schedule 24.8 - Landscape Character Units.
- 24.2.5.2 Promote design-led and innovative patterns of subdivision and development that maintain or enhance the landscape character and visual amenity values of the Wakatipu Basin overall.
- 24.2.5.3 Provide for non-residential activities, including restaurants, visitor accommodation, and commercial recreation activities while ensuring these are appropriately located and of a scale and intensity that ensures that the amenity, quality and character of the Precinct is retained.
- 24.2.5.4 Implement minimum and average lot size standards in conjunction with standards controlling building size, location and external appearance, so that the landscape character and visual amenity values of the Precinct, as identified in Schedule 24.8 – Landscape Character Units, are not compromised by cumulative adverse effects of development.
- 24.2.5.5 Maintain a defensible edge between areas of rural living in the Precinct and the balance of the Zone.
- 24.2.5.6 Retain vegetation that contributes to landscape character and visual amenity values of the Precinct, provided it does not present a high risk of wilding spread.

### 24.3.2 Interpreting and Applying the Rules

24.3.2.1 A permitted activity must comply with all of the rules (in this case of Chapter 24) and any relevant district wide rules.

24.3.2.2 The surface of lakes and rivers are zoned Rural.

24.3.2.3 Guiding Principle: Previous Approvals

- a. Requirements relating to building platforms and conditions of consents, including landscaping or other visual mitigation, that are registered on a site's computer freehold register as part of a resource consent approval by the Council are considered by the Council to remain relevant and will remain binding unless altered or cancelled.
- b. Applicants may apply to alter or cancel any conditions of an existing resource consent as a component of an application for resource consent for development. Whether it may be appropriate for the Council to maintain, or to alter or cancel these conditions shall be assessed against the extent to which a resource consent application accords with the objectives and provisions of the Wakatipu Basin Rural Amenity Zone and Wakatipu Basin Lifestyle Precinct (as applicable).

24.3.2.4 These abbreviations for the class of activity status are used in the following tables. Any activity which is not permitted (P) or prohibited (PR) requires resource consent.

P	Permitted	RD	Restricted Discretionary
D	Discretionary	NC	Non-Complying
PR	Prohibited		

24.3.2.5 The Wakatipu Basin Lifestyle Precinct is a sub-zone of the Wakatipu Basin Rural Amenity Zone and all rules in Table 24.1 apply to the Precinct. Where specific rules and standards are identified for the Precinct in Tables 24.2 and 24.3, these prevail over the Rural Amenity Zone rules in Table 24.1.

24.3.2.6 All activities, including any listed permitted activities are subject to the rules and standards contained in Tables 24.1 to 24.3.

### 24.3.3 Advice Notes

24.3.3.1 Clarifications of the meaning of root protection zone, minor trimming of a hedgerow, minor trimming and significant trimming are provided in Chapter 2 – Definitions.

24.3.3.2 On-site wastewater treatment is subject to the Otago Regional Plan: Water. In particular, Rule 12.A.1.4 of the Otago Regional Plan: Water requires that within the Lakes Hayes Catchment all on-site wastewater treatment systems are operated in accordance with a resource consent obtained from the Otago Regional Council.

<b>24.5.1</b>	<b>Residential Density</b>	
<b>24.5.1.1</b>	For sites with a net site area of 1 hectare or less and zoned in part or whole Wakatipu Basin Lifestyle Precinct, a maximum of one residential unit per site.	NC
<b>24.5.1.2.</b>	For sites with a net site area greater than 1 hectare and zoned in part or whole Wakatipu Basin Lifestyle Precinct, no more than one residential unit per hectare on average of the net site area zoned Wakatipu Basin Lifestyle Precinct.	NC
<b>24.5.1.3</b>	Where Rule 24.5.1.1 or Rule 24.5.1.2 applies, all residential units (including residential flats) must be located within the area zoned Wakatipu Basin Lifestyle Precinct.	NC
<b>24.5.1.4</b>	Any site in the Wakatipu Basin Rural Amenity Zone located wholly outside the Precinct in respect of which the Computer Freehold Register for the site was issued before 21 March 2019 and with an area less than 80 hectares, a maximum of one residential unit per site.	NC
<b>24.5.1.5</b>	For that part of all other sites in the Wakatipu Basin Rural Amenity Zone wholly located outside of the Precinct, a maximum of one residential unit per 80 hectares net site area.	NC
<b>24.5.2</b>	<b>Alterations to buildings for residential activities not located within a building platform</b> Alterations to a building not located within a building platform must not increase the	RD Discretion is restricted to: a. Landscape character; b. Visual amenity;

## 24.6 Non-notification of applications

Any application for resource consent for controlled or restricted discretionary activities shall not require the written consent of other persons and shall not be notified or limited-notified, with the exception of the following:

- a. Rule 24.5.4 Building Size.
- b. Rule 24.5.5 Building coverage.
- c. Rule 24.5.6 Setback from internal boundaries.
- d. Rule 24.5.7 Height of buildings.
- e. Rule 24.5.8 Setback from roads.
- f. Rule 24.5.10 Setback from Escarpment, Ridgeline or River Cliff Feature.
- g. Rule 24.4.16 Retail sales of farm and garden produce and wine, where the access is onto a State Highway.

## 24.7 Assessment Matters

**24.7.1** In considering whether or not to grant consent and/or impose conditions on a resource consent, regard shall be had to the assessment matters set out at 24.7.3 to 24.7.15.

**24.7.2** All proposals for controlled activities or restricted discretionary activities will also be assessed as to whether they are consistent with the objectives and policies relevant to the identified matters of control or discretion (as applicable) in this Chapter 24 as well as those in Chapters 3 - Strategic Direction; Chapter 4 - Urban Development, Chapter 6 - Landscapes and Chapter 28 - Natural Hazards..

	<b>Assessment Matters-Controlled Activities</b>
<b>24.7.3</b>	<p>The construction of buildings for residential activity:</p> <p><b>Landscape character and visual amenity</b></p> <ol style="list-style-type: none"> <li>a. Whether the location, form, scale, design and finished materials including colours of the building(s) adequately responds to the identified landscape character and visual amenity qualities of the landscape character units set out in Schedule 24.9 – Landscape Character Units and the criteria set out below.</li> </ol>

	<b>Assessment Matters-Controlled Activities</b>
	<p>b. The extent to which the location and design of buildings and ancillary elements and the landscape treatment complement the existing landscape character and visual amenity values, including consideration of:</p> <ul style="list-style-type: none"> <li>i. building height;</li> <li>ii. building colours and materials;</li> <li>iii. building coverage;</li> <li>iv. design, size and location of accessory buildings;</li> <li>v. the design and location of landform modification, retaining, fencing, gates, accessways (including paving materials), external lighting, domestic infrastructure (including water tanks), vegetation removal, and proposed planting;</li> <li>vi. the retention of existing vegetation and landform patterns;</li> <li>vii. earth mounding and framework planting to integrate buildings and accessways;</li> <li>viii. planting of appropriate species that are suited to the general area having regard to the matters set out in Schedule 24.9 - Landscape Character Units;</li> <li>ix. riparian restoration planting;</li> <li>x. the retirement and restoration planting of steep slopes over 15° to promote slope stabilisation and indigenous vegetation enhancement; and</li> <li>xi. the integration of existing and provision for new public walkways and cycleways/bridlepaths.</li> </ul> <p>c. The extent to which existing covenants or consent notice conditions need to be retained or are otherwise integrated into the proposed development in a manner that maintains or enhances landscape character and visual amenity values.</p> <p>d. The extent to which the development maintains visual amenity in the landscape, particularly from public places.</p> <p>e. Whether clustering of buildings or varied densities of the development areas would better maintain a sense of openness and spaciousness, or better integrate development with existing landform and vegetation or settlement patterns.</p> <p>f. Where a residential flat is not located adjacent to the residential unit, the extent to which this could give rise to sprawl of buildings and cumulative effects.</p> <p>g. The extent to which the development avoids, remedies or mitigates adverse effects on the features, elements and patterns that contribute to the value of adjacent or nearby ONLs and ONFs. This includes consideration of the appropriate setback from such features as well as the maintenance of views from public roads and other public places to the surrounding ONL and ONF context.</p> <p>h. Whether mitigation elements such as a landscape management plan or proposed plantings should be subject to bonds or covenants.</p> <p>i. The merit of the removal of wilding exotic trees at the time of development.</p> <p>j. Whether the proposed development provides an opportunity to maintain landscape character and visual amenity through the registration of covenants requiring open space to be maintained in perpetuity.</p>
<b>24.7.4</b>	<b>Infrastructure and access</b>

<b>Assessment Matters-Controlled Activities</b>	
	<p>a. The extent to which the proposal provides for adequate on-site wastewater disposal and water supply. The provision of shared infrastructure servicing to more than one property is preferred in order to minimise environmental effects.</p> <p>b. The extent to which the proposed access utilises an existing access or provides for a common access in order to reduce visual and environmental effects, including traffic safety, minimising earthworks and vegetation removal.</p>

<b>Assessment Matters- Restricted Discretionary Activities</b>	
<b>24.7.5</b>	<p>New buildings (and alterations to existing buildings) including farm buildings and residential flats; and infringements of the standards for building coverage, building size, building material and colours, and building height:</p> <p>Landscape character and visual amenity</p> <p>a.
