Dear / Tēnā koe Simon

DRAFT STATEMENT OF INTENT FEEDBACK

My sincere thanks to the Queenstown Airport Corporation (QAC) for attending a workshop with Queenstown Lakes District Council (QLDC) elected members. A good discussion was had, and in particular four points were raised for the QAC Board's consideration in relation to the Draft Statement of Intent (SOI):

1. Acknowledgement that the engagement with the QLDC Audit, Finance and Risk Committee on the Master Plan 2023 investment programme will occur bi-annually.
2. In regard to the Northern Land Development disclosure, consider amending the wording to state that QAC will undertake timely consultation on the options, scope and proposed development of the land...
3. An enhanced reference to commitment to General Aviation activity.
6. Some commentary in relation to QAC's intent in terms of innovation in encouraging the use of public transport options (how will the Key Performance Indicator be met).

We look forward to receiving the final SOI for consideration at the June meeting of Full Council.

Yours sincerely, Nāku noa nā

Glyn Lewers
MAYOR
