Q16. Please tell us more about your position on the proposed changes to community facilities fees

Noted in our submission - we are just aware that we don't want financial barriers to stop families from enjoying physical activity. The return on any investment in sport, recreation and play is positive, for every dollar spent there is a gain in two dollars for social outcomes from sport, recreation and play.

Q17. What is your position on the proposed changes to animal control fees? Neutral

Q18. Please tell us more about your position on the proposed changes to animal control fees

not answered

Q19. What is your position on the proposed changes to parking fees in the Queenstown Town Centre? Support

Q20. Please tell us more about your position on the proposed changes to parking fees in the Queenstown Town Centre

This creates incentive for individuals to utilise active transport modes such as walking or biking, or taking public transport. The money from parking needs to go back into the cycle trails and other facilities to support a healthy active community.

Q21. What is your position on the proposed changes to the Capital Expenditure programme? Oppose

Q22. Please tell us more about your position on the proposed changes to the Capital Expenditure programme

There needs to be continued investment in the recreation centres and sports fields to meet the demands of a growing population base. Currently there is not enough space for inside sports such as basketball, or playing fields for football in the region. These need to be a priority for development as the social health payback for the community exceeds the cost of investment.

Q23. Please use this space to comment on any aspect of the draft Annual Plan 2023-2024

not answered

24 April 2023

Queenstown Lakes District Council
Private Bag 50072
QUEENSTOWN 9348

2023/2024 Queenstown Lakes District Council Annual Plan Submission

Dear Councillors,

Thank you for the opportunity to submit to the 2023/2024 Annual Plan process. We note that even in these financially difficult times the Council has successfully completed, or started, some of the projected initiatives identified in the Queenstown Lakes-Central Otago Regional Sport and Recreation Facility Strategy. We congratulate the Council on this.

However, accepting that these are difficult times, we also note that many of the play, active recreation, and sport projects have been pushed out several years within the 10 Year Plan, especially with the changes to the 3 Water reforms and the financial impact across the next three years. With continued population growth, and clubs experiencing substantial growth impacting on their current capacity, we are reaching a critical tipping point in the district's development if we want to remain a place that attracts people to want to come, live, and play.

We continue to work closely with the Queenstown Lakes District Council in taking a collaborative and coordinated approach, ensuring that Council is aware of the issues facing its communities in the play, active recreation, and sports sectors. We are working with Council staff on a number of projects focused on upgrades and improvements to spaces and places, implementation of the facilities plan, key to which is Council working to the plan when determining investment with the focus being on genuine local need, supported by robust evaluation of merit for any proposed project.

Further work is being carried out in formulating a 'play' strategy, hubbing of sports together to strengthen and facilitate networking, shared services, and resources, whilst also working with staff on future proofing through land acquisition and locally-led community based initiatives.

Relative to the above, we thank Council for its continued support of Sport Central through ongoing grants. We would seek Councils consideration of an inflation adjustment to recognise that our costs have increased while the grant has remained static for many years.

Our submission relates to the following specific issues:

1. We commend Council in developing its spatial plan and continue to advocate for a focus on active transport for our tamariki and rangatahi. We believe that further work is required through consultation and collaboration with a range of relevant organisations, including NZ Police and Waka Kotahi, particularly in addressing safety issues around schools and open spaces close to major arterial roads. Sport Central/Sport Otago support the safety messages around active transport with Clued Up Kids being delivered in 2022 and 2023. This program consists of two full days each year supporting scooter safety for our Tamariki.

The provision within the Annual Plan for walking and cycling along with maintenance and further development of cycleways and walkways is noted and supported.

2. Sport Central/Sport Otago congratulate Council in progressing the facility developments at the Queenstown Events Centre and the Wānaka Community and Sports facility (previous Mitre 10 building). Additional indoor court space is crucial to easing pressure on already overloaded facilities. The remedial stages of the Ballantyne Road oxidation ponds to form open/recreational space and along with Ladies Mile is commended and is crucial to the development of new sports field provision for the community. Like the indoor space there is major constraints on sports field availability and developing these greenfield sites will be an asset now and into the future.
3. The need to ensure development pathways for our young people within Central Otago is critical for the future. Sport Central/Sport Otago is working with the regions sporting and recreational organisations to have coordinators based within the district to build capability, capacity, networks, support systems, and pathways at a local level rather than the current intermittent services from the regional sporting and recreational organisations based out of Dunedin. This will ultimately provide more and better opportunities for our youth, and the strengthening of all sport and recreation within the area.
4. Whilst we fully understand the financial pressures faced by Council, the proposed increase in user fees and charges needs to be balanced against the barrier that increased fees and charges represent to a growing segment of the district's population,

particularly those on fixed and low incomes. Care needs to be exercised that increases in fees and charges do not act as a deterrent for those members of our community most in need of physical activity opportunities, denying them accessibility and inclusion.

5. Whilst there are a number of financial headwinds which have impacted on the Queenstown Lakes District and required a re-ordering of Council priorities as reflected in the long term plan, we are aware that Council has committed to a range of facility, open space, recreational activities, and spatial developments to the areas infrastructure. Sport Central/Sport Otago are committed to playing an increasing role working with Council (staff) and liaising with the community (as an independent facilitator) to assess need, undertake local level consultation in conjunction with Council, and guide community groups through the correct capex process to progress locally-led initiatives.

Thank you for your consideration of this submission.

Yours sincerely

James Nation
CEO
on behalf of
Sport Central/Sport Otago

Q23. Please use this space to comment on any aspect of the draft Annual Plan 2023-2024

I would like Council to include an allocation in the plan for the construction of desperately needed facilities at the Waiorau Recreation Reserve including toilet facilities and associated infrastructure, dedicated carparking, and a community facility to provide shelter, a lunch room and teaching educational facility at the Reserve. This is on QLDC land leased to the Pisa Alpine Charitable Trust which oversees the Snow Farm. The Snow Farm is the only Nordic Ski facility in NZ, one of three in the Southern Hemisphere, and the only non-profit ski area in the Lakes Region,. Over 30 local schools use the Snow Farm to learn about the winter backcountry, skiing, snowshoeing, snow-caving, et cetera. The Snow Farm is a National resource that provides for all ages and abilities year round. Please help the Snow Farm by providing critically needed infrastructure.

Q24. Do you wish to also apply for a Community Grant? No

Q25. Please provide details about your group or organisation

not answered

Q26. Did you receive a community grant from QLDC in 2021-2022 or 2022-2023? not answered

Q27. If yes, what was the purpose of the grant and the total amount of community grant funding you or your organisation received from QLDC in 2021-2022 and 2022-2023? not answered

Q28. How much funding are you or your organisation requesting for 2023-2024? not answered

Q29. What community projects or operational services will these funds be used to deliver?

not answered

Q30. How will this investment in your project or organisation be of value to the wider community?

not answered

Q31. How will this investment in your project or organisation support the outcomes of our community's Vision Beyond 2050? not answered

Q32. What other funding have you have applied for or confirmed for 2023-2024 to support this project or the operational services of your organisation?

not answered

Q33. Please upload any supporting documentation for your application here not answered

- Q2. **Organisation (if any)** Wao Aotearoa
-
- Q3. **Email** [REDACTED]
- Q4. **Location** Wānaka
- Q5. **Do you wish to speak at a hearing?** No
- Q6. **If yes, please provide a contact number** not answered
- Q7. **Do you wish to provide feedback on the Draft Annual Plan 2023-2024 or apply for a community grant?** Make an Annual Plan submission (also includes an option to apply for a community grant)
- Q8. **If you have a pre-prepared submission, you can upload it below** not answered
- Q9. **What is your position on the proposed changes to resource and building consent fees?** Neutral
- Q10. **Please tell us more about your position on the proposed changes to resource and building consent fees**
not answered
- Q11. **What is your position on the proposed changes to waste services fees?** Support
- Q12. **Please tell us more about your position on the proposed changes to waste services fees**
Food waste should be a priority
- Q13. **What is your position on the proposed changes to sport and recreation fees?** Oppose
- Q14. **Please tell us more about your position on the proposed changes to sport and recreation fees**
We need to make sure that sport facilities are affordable for families and athletes, in particular as the price of everything else goes up. The investment in increasing community wellbeing is aligned to the Districts Vision Beyond 2050. A fees increase runs counter to this Vision.
- Q15. **What is your position on the proposed changes to community facilities fees?** Neutral
- Q16. **Please tell us more about your position on the proposed changes to community facilities fees**
not answered

Q17. What is your position on the proposed changes to animal control fees? Neutral

Q18. Please tell us more about your position on the proposed changes to animal control fees

not answered

Q19. What is your position on the proposed changes to parking fees in the Queenstown Town Centre? Support

Q20. Please tell us more about your position on the proposed changes to parking fees in the Queenstown Town Centre

not answered

Q21. What is your position on the proposed changes to the Capital Expenditure programme? Neutral

Q22. Please tell us more about your position on the proposed changes to the Capital Expenditure programme

We need to increase our spending to help transition to a low emissions community.

Q23. Please use this space to comment on any aspect of the draft Annual Plan 2023-2024

What is absent from the draft Annual Plan is the increased budget lines to help decarbonise the tourism sector by 2030, a goal that was endorsed by the Council in February. Where is support for Vision Beyond 2050 as well as our Climate and Biodiversity Plan?

Q24. Do you wish to also apply for a Community Grant? Yes

Q25. Please provide details about your group or organisation

Wao Aotearoa

Q26. Did you receive a community grant from QLDC in 2021-2022 or 2022-2023? No

Q27. If yes, what was the purpose of the grant and the total amount of community grant funding you or your organisation received from QLDC in 2021-2022 and 2022-2023? not answered

Q28. How much funding are you or your organisation requesting for 2023-2024? 50,000

Q29. What community projects or operational services will these funds be used to deliver?

We will use this grant to help fund the administration and operational needs to deliver our annual work load for Wao Aotearoa including the Wao Summit, Food Resilience Project, Get SMART Campaign and in particular Biketober, Better Building Working Group, Gen Wao, Community Events and Climate Action Initiative.

Q30. How will this investment in your project or organisation be of value to the wider community?

Our group is focused on helping the community live in balance with a thriving, diverse ecosystem. We are focused on advocating for the behaviour shifts necessary to go towards a low emissions resilient future. We aim to get our message out through inspiring, educating and empowering all parts of our community to lead the change and build resilience through both adaptation and mitigation. Our audience ranges from schools through our Gen WAO program, business support to the general community. This grant would be a huge help in scaling up our activities and valuing the work we do.

Q31. How will this investment in your project or organisation support the outcomes of our community's Vision Beyond 2050?

- Thriving people
- Living Te Ao Māori
- Opportunities for all
- Breathtaking creativity
- Deafening dawn chorus
- Zero carbon communities
- Disaster-defying resilience
- Pride in sharing our places

Q32. What other funding have you have applied for or confirmed for 2023-2024 to support this project or the operational services of your organisation?

CLT - \$150,000

Q33. Please upload any supporting documentation for your application here

Q34. I understand that all submissions and community grant applications will be treated as public information.

CHANGE DOES NOT JUST HAPPEN... YOU'VE GOT TO WORK ON IT

WAO Aotearoa has been working for the last six years on inspiring, educating and empowering our community to live in balance with a thriving, diverse ecosystem. We have come to the point where the volume of work has accelerating and voluntary hours have reached their limits.

Our vision and goals align closely to Vision Beyond 2050 and the Climate Action and Biodiversity Plan. The focus of our work is on implementing these key district guiding documents.

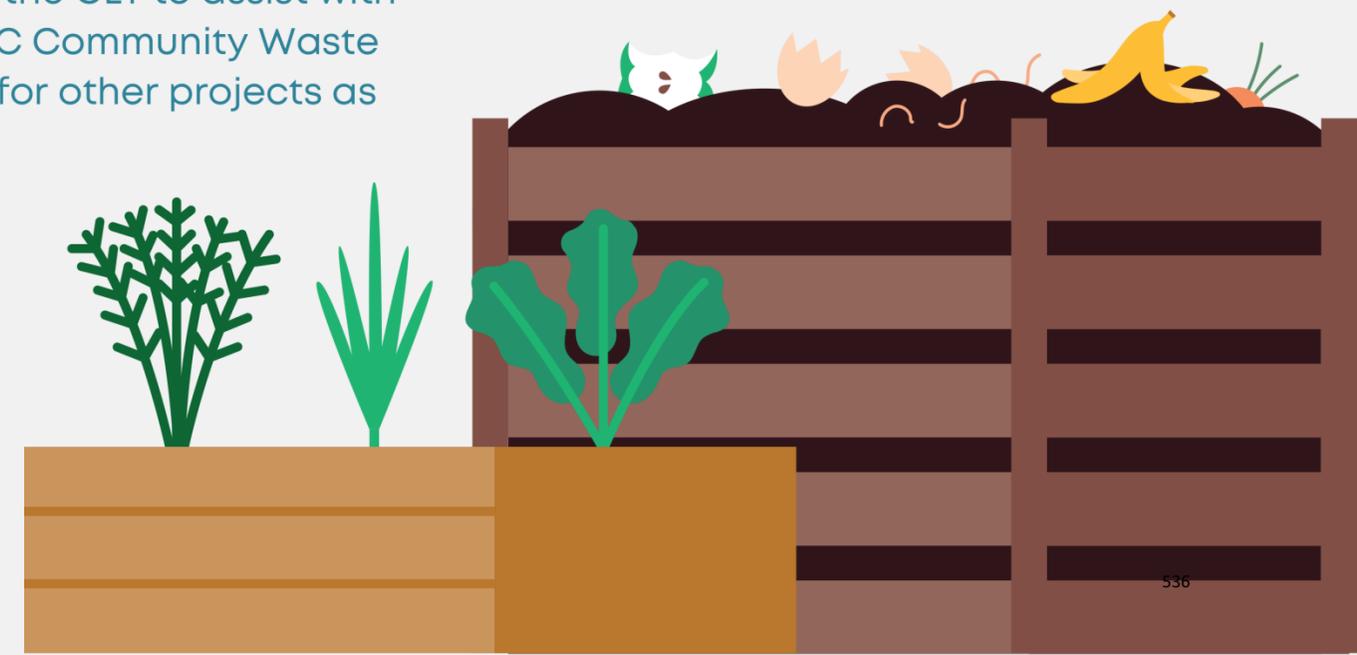

We are applying to the QLDC Community Grant fund to help us with our administrative and operational needs to supplement the support we receive to role out the projects and events we delivery.

This year, we have a total budget of \$640,000. We have recently been granted funding for the 2023-24 year for \$150,000 from the CLT to assist with specific projects. We will also be applying to the QLDC Community Waste Minimisation Fund and look to funding opportunities for other projects as they arise.

We all know we have limited energy and materials on this planet. It does not take an advanced degree in maths or physics to understand that we can not tech or plant ourselves out of the current situation. Collective action to accelerate behaviour change is the only silver bullet we have left.

How can we best work together as a team to help our community live in balance within a thriving, diverse ecosystem?

Q22. **Please tell us more about your position on the proposed changes to the Capital Expenditure programme**

I want Council to include an allocation in the Plan to construct desperately needed facilities at the Waiorau Recreation Reserve, including toilet facilities and associated infrastructure, dedicated carparking, a community facility to provide shelter, a lunch room and a teaching educational facility at the Reserve. My wife and I were regular early users of the Waiorau XC ski area / Snow Farm. We then lived in Dunedin. We initiated ski orienteering at Waiorau and that is still an annual event attracting both experienced and first time users. Facilities described above are essential for this sport. Early this century while living in Australia, I travelled specifically to the Snow Farm for a XC skiing holiday. I was just one of many international visitors expecting, and getting, facilities that were then provided through the snow car testing area. We would not visit without at least the facilities requested above. We recently moved back to NZ and are looking forward to resuming our Snow Farm XC skiing and ski orienteering. But we need to know suitable facilities are available. Therefore we strongly commend and support the above changes to Capex.

Latinos for New Zealand is a non-profit community group that aims to empower and support the Latin American community in New Zealand while promoting diversity and cultural understanding. Its purpose is to create a sense of community and belonging among Latinos living in New Zealand and to facilitate their integration into Kiwi society. The organisation is run by a volunteer board of directors and works to organise events and activities that celebrate Latin American culture and heritage. The vision of Latinos for New Zealand is to foster a society in which Latin American individuals and communities are valued, respected and have equal opportunities. The mission of the organisation is to: Empower and support the Latin American community in New Zealand. Promote cultural understanding and diversity among all Kiwis. Provide a platform for the expression of Latin American culture and heritage. Advocate for the rights and interests of the Latin American community in New Zealand. To achieve these goals, Latinos for New Zealand organises a range of activities and events, such as: Celebrations of Latin American holidays and festivals Language exchange programs and Spanish language classes. Cultural workshops, such as dance and music classes, cooking classes, and crafts. Community outreach programs, such as providing assistance for newly arrived immigrants and refugees, and working with local organisations to provide resources and support to the Latin American community. Latinos for New Zealand welcomes anyone interested in joining and supporting their cause, whether they are of Latin American descent or not. Volunteers are always needed and welcome to assist with events, workshops, and other activities.

Q26. Did you receive a community grant from QLDC in 2021-2022 or 2022-2023?

Yes

Q27. If yes, what was the purpose of the grant and the total amount of community grant funding you or your organisation received from QLDC in 2021-2022 and 2022-2023?

We received : \$1000 from connecting communities 2022 - \$1000 from connecting communities 2023 - \$ 2000 Class funding 2023- \$500 QLDC 2023

Q28. How much funding are you or your organisation requesting for 2023-2024?

We are requesting \$21.000

Q29. What community projects or operational services will these funds be used to deliver?

Latinos for New Zealand is the umbrella of the Latin community in Lakes District area. Therefore, our purpose is to provide support to the Latin community on the organization of their cultural annual festivals such as : Independence Day, Heritage day and our second edition of the Latin Kiwi Integration Festival to be held next November 2023

Q30. How will this investment in your project or organisation be of value to the wider community?

If Latinos for New Zealand were to receive a grant from the local council to support its projects and initiatives, there would be several positive outcomes for the wider community, including: Improved cultural understanding: Latinos for New Zealand is committed to promoting greater cultural understanding and awareness of Latin American cultures in New Zealand. With the support of a grant, the organisation would be able to run more community events and initiatives that would allow people from different backgrounds to come together, learn from each other, and celebrate the rich diversity of our community. Increased social cohesion: By promoting greater understanding and appreciation of Latin American cultures, Latinos for New Zealand is helping to build stronger social connections between different groups in our community. This, in turn, can lead to increased social cohesion and a greater sense of belonging for all members of our community. Support for vulnerable communities: Latinos for New Zealand is also focused on providing support and advocacy for vulnerable members of the Latin American community in New Zealand. With the support of a grant, the organisation would be able to provide more resources and services to these individuals and families, helping to improve their wellbeing and quality of life. Economic benefits: Latinos for New Zealand also aims to support Latin American businesses and entrepreneurs in New Zealand. By promoting greater awareness of these businesses and providing networking opportunities, the organisation can help to boost the local economy and create more job opportunities for members of the Latin American community.

Q31. How will this investment in your project or organisation support the outcomes of our community's Vision Beyond 2050?

- Thriving people
- Living Te Ao Māori
- Opportunities for all
- Breathtaking creativity
- Deafening dawn chorus
- Zero carbon communities
- Disaster-defying resilience
- Pride in sharing our places

Q32. What other funding have you have applied for or confirmed for 2023-2024 to support this project or the operational services of your organisation?

We have not applied to additional funding yet

Q33. Please upload any supporting documentation for your application here

Q34. I understand that all submissions and community grant applications will be treated as public information. I understand

Latinos for New Zealand Community group

Latinos for New Zealand is a non-profit community group that aims to empower and support the Latin American community in New Zealand while promoting diversity and cultural understanding. Its purpose is to create a sense of community and belonging among Latinos living in New Zealand and to facilitate their integration into Kiwi society. The organisation is run by a volunteer board of directors and works to organise events and activities that celebrate Latin American culture and heritage.

We believe that Integration and social cohesion, are essential values to prevent potential social unrest. Promoting integration and social mobility, has proved to be the best prevention strategy. On that same line, is that we embrace the chance that New Zealand has given us, to grow and thrive in an inclusive community.

The vision of Latinos for New Zealand is to foster a society in which Latin American individuals and communities are valued, respected and have equal opportunities. The mission of the organisation is to:

- Empower and support the Latin American community in New Zealand.
- Promote cultural understanding and diversity among all Kiwis.

- Provide a platform for the expression of Latin American culture and heritage.
- Advocate for the rights and interests of the Latin American community in New Zealand.
- To achieve these goals, Latinos for New Zealand organises a range of activities and events, such as:
 - Celebrations of Latin American holidays and festivals, such as : Dia de los Muertos, Carnaval, and Independence Day celebrations.
 - Language exchange programs and Spanish language classes.
 - Cultural workshops, such as dance and music classes, cooking classes, and crafts.
 - Community outreach programs, such as providing assistance for newly arrived immigrants and refugees, and working with local organisations to provide resources and support to the Latin American community.

Latinos for New Zealand welcomes anyone interested in joining and supporting their cause, whether they are of Latin American descent or not. Volunteers are always needed and welcome to assist with events, workshops, and other activities. Contact information for the organisation will be found on our website.

Latinos for New Zealand has recognised the importance of mental wellbeing in their community, and as a result, they have aligned themselves with two important models: the Five Ways to Mental Wellbeing and the Te Whare Tapa Whā Maori model.

The Five Ways to Mental Wellbeing model is a widely acknowledged framework for promoting and maintaining positive mental health. The five ways are:

- Connect: Building positive relationships with others
- Be active: Engaging in regular physical activity
- Take notice: Being present in the moment and focusing on the present
- Keep learning: Continuously learning and challenging oneself
- Give: Engaging in acts of kindness and giving back to the community.

The group has embraced these five ways as a means of promoting mental wellbeing among its members. By promoting positive relationships, physical activity, mindfulness, continuous learning, and community involvement, the community seeks to foster a sense of resilience and empowerment among its members.

Additionally, Latinos for New Zealand community group has also aligned itself with the Te Whare Tapa Whā Maori model, which is a holistic framework for promoting health and wellbeing within the Maori community. The model emphasises four key dimensions of wellbeing:

- taha tinana (physical wellbeing)
- taha hinengaro (mental and emotional wellbeing)
- taha whanau (social wellbeing)
- taha wairua (spiritual wellbeing)

By embracing this model, the group seeks to promote a holistic approach to mental wellbeing that is aligned with the values and traditions of the Maori community. This approach emphasises the importance of cultural identity, community engagement, and spiritual connectedness as key factors in maintaining positive mental health.

In summary, Latinos for New Zealand has aligned itself with both the Five Ways to Mental Wellbeing model and the Te Whare Tapa Whā Maori model as a means of promoting positive mental health and wellbeing among its members. By embracing these frameworks, the community seeks to foster a sense of resilience, empowerment, and cultural connectedness

among its members, while also promoting positive relationships, physical activity, mindfulness, continuous learning, and community involvement.

Latino - Kiwi Festival Second Edition Strategic Plan

Vision:

To create a vibrant and inclusive event that celebrates the diversity of the Latino community and promotes cultural exchange with the Kiwi community in Queenstown.

Mission:

To showcase the Latino culture, traditions, and values to the Kiwi community through a day of food, music, dance, sports, arts and crafts, and cultural activities, while promoting integration, opening new business opportunities, and fostering cultural exchange.

Goal and objective:

The goal of the festival is to celebrate and showcase the Latino culture to the Kiwi community in Queenstown. The main objective is to promote integration and open new business opportunities within the Latino community while also highlighting the colourful culture and values they bring to the community.

Conduct a market research:

Research the Latino and Kiwi communities in Queenstown to understand their cultural interests, preferences, and what they would like to see in the festival. This will help tailor the festival program to meet the needs of both communities.

Get local permits:

Obtain the necessary local permits from the council to hold the festival. Make sure all health, safety, and legal requirements are met to ensure the success of the festival.

Develop a program:

Plan the festival's program, which could include cultural performances, food stalls featuring Latino cuisine, music, dance lessons, sports demonstrations, arts and crafts exhibitions, and the sale of typical Latino drinks. Consider including activities such as salsa dancing lessons, traditional music performances, soccer matches, and cooking demonstrations to showcase the richness of the Latino culture.

We will get a Latino DJ as well as a Latinos for New Zealand sounds and Lights Manager .

We also need a master of ceremony that should speak both English and Spanish

Marketing and promotion:

Develop a marketing and promotion strategy to reach out to the target audience, both the Latino and Kiwi communities, using various channels such as social media, local newspapers, posters, and flyers. Utilise social media, collaborate with the council and local business community, leverage local influencers, offer discounts and promotions, create a festival website, partner with local media outlets, and consider pre-festival events to build excitement.

Manage logistics:

Make sure all logistics are in place, such as security, lighting, sound systems, transportation, and parking arrangements.

Evaluate the festival:

After the festival, evaluate the success of the festival, gather feedback, and identify areas for improvement for future festivals.

Volunteer program:

Develop a volunteer program to involve the community in the planning and execution of the festival. This will help generate support and create a sense of ownership in the community.

Commission within the Latino community:

we will be creating different commissions within the Latino community group, "Latinos for New Zealand," to manage specific aspects of the festival, such as marketing, logistics, and volunteer management. This will ensure the effective planning and execution of the festival while promoting community involvement and ownership.

Festival details:

The festival is organised by "Latinos for New Zealand" and will take place on November 2023, at a local venue.

Alcohol will not be sold as we intend to keep our Festival as a family activity and show to our community once again, that we can have fun without consuming alcohol. We believe that positive behaviours are not only a good community example, but also a contagious trending topic.

Data collection and analysis:

Take advantage of the festival to gather data from the public to design a metric chart and analyse the results. Use this information to secure more funding and increase representation for the Latino community in New Zealand.

Invitation to local government representatives and agencies: Make a formal invitation to local government agencies to attend the festival to build up valuable relationships that could potentially lead to future partnerships and support.

Task chart:

Prepare a chart to keep track of the tasks and their level of accomplishment by each of the responsible commissions. This chart should include task, person in charge and time frame for accomplishment

By following this comprehensive strategic plan, you should be able to successfully organise a Latino Kiwi festival in Queenstown, New Zealand, and celebrate the culture while fostering cultural exchange, promoting integration, and opening new business opportunities within the Latino community.

Proposal: Latin Kiwi Festival 2023 Introduction:

Latinos for New Zealand (LFNZ) is proud to present the second edition of Latin Kiwi Festival 2023, an event that celebrates the Latin American culture and its integration with New Zealand. The festival aims to provide a platform for Latinos and non-Latinos to come together and enjoy music, dance, art, sports, food, and beverages. The festival will take place during November 2023 in a location to be determined.

Integration Objective:

The Latin Kiwi Festival 2023 is all about integration. LFNZ wants to showcase the Latin American culture and provide an opportunity for the Kiwi community to experience it firsthand. The festival will feature music, dance classes, sports, art, and traditional Latin American food and beverages. This event will encourage interaction, engagement, and understanding between two cultures, leading to better social cohesion and community well-being.

Activities:

The Latin Kiwi Festival 2023 will offer a diverse range of activities that will appeal to all age groups. The following activities are planned for the

Festival:

Music Performances: The festival will feature live music from talented artists, including a Kiwi saxophonist, a Latin singer and a

Latin a DJ.

Dance Performances & Classes: Festival-goers will have the opportunity to watch and learn various Latin American dances

Sports: we will present our basketball latino team and our great Hockey team that have been promoting sports and Integration since their creation. The idea is to invite the community to be part and support our great teams, that make a huge effort to promote in our community the importance of practicing a sport, as one of the main pillars of the physical and mental health.

Introduction speeches from Local Authorities and Latinos for NZ Organisational group.

Our Peruvian community will also delight us with an artistic performance that will include a typical dancing exhibition.

Art Exhibitions: A gallery of art from Latin American artists will be showcased at the festival.

Food and Beverages: Traditional Latin American food and beverages will be available for purchase, including empanadas, tacos, ceviche, sausages and our great cakes.

Cultural Exhibitions: A display of traditional Latin American costumes, masks, and handicrafts will be presented.

Our I talks: we will present a couple of motivational speakers that will speak about their own entrepreneurial path in New Zealand . They will share how they became successful by hard work, persistence and compliance with the kiwi legal system and the framework of best business practices.

At Latinos for New Zealand, we believe in the power of culture to bring people together and foster a sense of belonging. We want to share and show our culture through a variety of activities, such as music and dancing classes, sports, music performances, arts, food, and beverages. By doing so, we hope to promote diversity and encourage cross-cultural understanding among attendees.

The festival is expected to attract a minimum of 1000 attendees, so food and beverages have been calculated accordingly. We aim to create a vibrant and inclusive environment where everyone can feel welcome and have a good time.

Here are some of the procedures we will follow during the Latino

Kiwi Festival:

Venue Hire: Secure the venue hire, and sign a contract with the facility owner to establish the terms of use, payment, and other relevant conditions.

Sound and Lights: Hire a professional sound and lighting company to set up and operate the sound and lighting equipment for the festival. Ensure that the equipment is of good quality, meets safety standards, and provides an excellent sound and visual experience for the audience.

Master of Ceremonies: Hire a skilled and experienced Master of Ceremonies (MC) to host the festival, introduce the performers, and engage with the audience. The MC should have good communication skills, a

pleasant personality, and a good understanding of the Latino culture and the festival's objectives.

Performers: Invite a variety of talented performers to showcase the Latino culture, including musicians, dancers, sports players, and visual artists. Ensure that the performers are paid fairly and have appropriate accommodations, transportation, and technical support.

Food and Beverages: Provide a range of authentic Latino food and beverages that will be sold to the attendees. Coordinate with local food vendors or caterers to ensure that the food and beverages are of high quality, meet safety and health standards, and are sold at reasonable prices.

Security: Get a group of volunteers to provide security services during the festival, including crowd control, emergency response, and theft prevention.

Insurance: Purchase liability insurance to cover any potential risks or damages that may occur during the festival. Ensure that the insurance policy meets the legal and contractual requirements and provides adequate coverage for the festival organisers, performers, and attendees.

Permit Fees: Obtain all necessary permits and licenses from the local authorities to conduct the festival, in-

cluding entertainment permits, liquor licenses, and health permits. Ensure that the permit fees are paid on time and that all permit conditions are met.

Stationery: Prepare and distribute promotional materials, such as flyers, posters, brochures, and banners, to advertise the festival and attract attendees. Ensure that the promotional materials are visually appealing, informative, and comply with the local laws and regulations.

Marketing and Coms Campaign: Develop and implement a comprehensive marketing campaign to promote the festival, using various channels such as social media, radio, TV, print media, and outdoor advertising. Ensure that the marketing messages are consistent, engaging, and target the right audience.

Disc Jockey: Hire a professional disc jockey (DJ) to play music during the breaks between the performances and keep the audience entertained. Ensure that the DJ has a good selection of Latino music, understands the festival's atmosphere, and follows the MC's instructions.

Mental Health and Wellbeing: Incorporate the five ways to wellbeing and the Maori model *te whare tapa wha* into the festival's activities and messaging. Provide information and resources on mental health and well-

being, offer opportunities for physical activities and social connections, and create a welcoming and inclusive environment that respects diversity and promotes respect and empathy.

By following these procedures and best practices, the Latino Kiwi Festival can provide a safe, enjoyable, and memorable experience for all attendees and contribute to the cultural richness and social wellbeing of the Queenstown community.

Mental Health and Wellbeing:

The Latin Kiwi Festival 2023 aims to enhance mental health and well-being by promoting the NZ Five Ways to Wellbeing and the Maori model Te Whare Tapa Wha. The festival will encourage social connections, physical activity, mindfulness, and cultural participation. By promoting community cohesion, the festival aims to enhance mental health and well-being.

Conclusion:

The Latin Kiwi Festival 2nd Edition 2023 is a unique opportunity for the Kiwi community to experience the vibrant Latin American culture. This festival aims to promote integration, community cohesion, and mental health and well-being. LFNZ invites sponsors and partners to support this event and help us make it a success. Thank you for considering our proposal.

TESTIMONIALS LATIN KIWI INTEGRATION FESTIVAL

Disclosure : Unfortunately, some of the local stakeholders that in the past could have written a support letter, are now banned from supporting this kind of applications. That has no relation with their opinion of the actual support they can give you. It is just an internal new policy.

Being part of the first Latino festival fills me with pride and happiness. I constantly attend all the festivals that are organised in Queenstown (Waitangi day, Asian and Indian festival, Korea day, among others) and I always wondered why a Latin one was not held, since many of us live in this country. I'm very happy to have been able to share a bit of our culture and joy with the community, through the first "Latin Kiwi" festival. It was a beautiful experience, of integration, of being able to share what Latin America is with my Kiwi friends.

I appreciate the opportunity to participate in this type of activities that I consider to be very important and I hope to have the opportunity to repeat it again, I think it was a success! Latinos for New Zealand are an amazing community group and I am very proud to be part of their team . Their mission statement should be more supported, as the only thing they are doing is adding value to the community.

Cecilia Martínez (Volunteer)

My name is Florencia Janel Segura and I would like to share that the Latin Kiwi Integration Festival was an absolute success ! Everything was so professional and well organised. The activities, dancing classes, performances and the whole line up was awesome.

We could all notice the effort and hard work that each of the organisers and volunteers invested on this great festival.

This event also added specific knowledge about the latin countries and each culture. In my own experience, even when I am Argentinian and Latin , I could say that I was very happy to witness and understand more about the music, dancing , culture and food of other latino countries like Chile, Mexico, Peru, Brazil, Ecuador and Uruguay.

Thanks to the team of latinos for New Zealand for sharing with us this amazing event !!

Florencia Janel Segura (Attendee)
40827865

Being part of the Latin Festival crew as a team member has been a great opportunity to connect with creativity with locals and people different Latin American countries. Likewise, for me personally has been very inspiring, working together for the same goal to show the diversity of our culture and the influence of our Latin American community in Queenstown through food, different art performances and activities. The outcome was outstanding and memorable. Latinos for New Zealand is adding value not only to the migrants, but to te business community that so desperately needs it as well.

Vannesa Estupinan Lopez (Volunteer)

My name is Victoria Bálamo.

Being part in the Latin Festival as an artist and a volunteer, was incredible. It was so beautiful to connect with other artists, getting together as a community with the diversity is inspiring and knowing that we can create big things, make feel so joyful. I could feel so much love and support from each person. Excited for what is coming next!

Victoria Balsamo (Performer)

I'm Matias Berardi. As an artist and volunteer was an incredible opportunity to connect and see all the latin community come together. Been in Queenstown for 8 years and this festival was something necessary for everybody. So many of us working and living here that we needed to feel home, share our culture, our food, our love. Thank you so much Latinos for New Zealand ! An amazing group that has done what nobody else had achieved before within our community. The spirit of Integration is what this guys have on their vision, and if they get more support , they will do wonders for the community.

Matias Berardi (Performer and Volunteer)

My name is James Patterson and I am kiwi that was at the festival. I couldn't believe how this people could have so much fun without drinking ! There is a lot for us to learn about their culture and the joy of living that they bring to New Zealand. This initiates, and particularly Latinos for New Zealand should get more support from the local authorities.

James M Patterson

Fue hermoso poder ser parte del Latín Kiwi fest, somos una comunidad muy pequeña, pero gracias a este evento hemos logrado unirnos mas y juntos poder dar a conocer mas sobre nuestra cultura, que por aquí no es muy popular. Fue un increíble ver la gran aceptación por parte de los presentes. Nos emocionó muchísimo, desde cuando se nos acabo nuestro delicioso ceviche en una hora y media (tuvimos que mandar a comprar pescado tres veces más) hasta las presentaciones en el escenario de nuestras danzas tradicionales.

Estamos muy felices y agradecidos por la invitación de Latinos for New Zealand .

Esperamos con ansias el siguiente 😊

Melissa Cuadros - Peruvian Community Leader

It was beautiful to be able to be part of the Latin Kiwi fest, we are a very small community, but thanks to this event we have managed to unite more and together we can make more known about our culture, which is not very popular around here. It was incredible to see the great acceptance by those present. We were very moved, from when we ran out of our delicious ceviche in an hour and a half (we had to send for fish three more times) to the stage performances of our traditional dances.

We are very happy and grateful for the invitation.

We look forward to the next one 😊

Melissa Cuadros

Sustainability strategic Plan for the three festivals:

1. **Waste management:** Implement a comprehensive waste management plan to minimise the impact of the festivals on the environment. This plan could include the use of biodegradable or compostable products, recycling stations, and responsible waste disposal practices. For example, providing reusable cups and utensils at food and beverage vendors, implementing a recycling program, and having volunteers monitor waste stations to ensure proper disposal.
2. **Sustainable transportation:** Encourage festival-goers to use sustainable transportation options, such as public transportation, biking, or walking. Providing bike racks, shuttle services, or coordinating carpooling programs can help reduce the carbon footprint of the festivals. For example, partnering with a local bike rental company to provide discounted rates to festival-goers who use bikes to get to the events.
3. **Energy conservation:** Implement energy-efficient practices during the festivals, such as using solar panels to power stages or other festival infrastructure. Using LED lights, reducing unnecessary lighting, and scheduling events during daylight hours can help reduce energy consumption. For example, using solar-powered lighting and sound systems, and scheduling events during the day to reduce the need for artificial lighting.
4. **Water conservation:** Implement water-saving practices during the festivals, such as using low-flow water fixtures and encouraging festival-goers to bring reusable water bottles. Providing refill stations and recycling bins for water bottles can help reduce the amount of waste generated. For example, partnering with a local water conservation organization to provide refill stations for reusable water bottles.
5. **Carbon offsetting:** Purchase carbon offsets to compensate for the festivals' carbon footprint. Carbon offsets can support initiatives such as renewable energy projects, reforestation, or methane

capture. For example, partnering with a local carbon offset provider to support local environmental projects.

6. **Community involvement:** Involve the community in sustainability efforts by providing education and volunteer opportunities. Educate festival-goers about sustainable practices and engage them in volunteer opportunities to help with waste management and other sustainability initiatives. For example, having volunteers assist with recycling and composting efforts, or partnering with local environmental organisations to provide educational booths and activities.
7. **Partnerships:** Collaborate with local businesses and organisations to support sustainability initiatives. Partnering with local businesses can help reduce the environmental impact of the festivals and promote sustainability efforts in the community. For example, partnering with a local composting company to manage waste and provide compost for local gardens.
8. **Monitoring and evaluation:** Monitor and evaluate sustainability efforts to identify areas for improvement and track progress over time. Collecting data on waste reduction, energy consumption, and other sustainability metrics can help identify opportunities for improvement in future festivals. For example, tracking waste reduction and energy consumption levels year-over-year and implementing improvements based on the data collected.

By following this sustainability strategic plan, the festivals can minimise their environmental impact and promote sustainable practices within the community.

This is a strategic plan that includes both the Latino Kiwi Festival and the two new festivals to celebrate the independence of Chile and Argentina:

Vision: To create vibrant and inclusive events that celebrate the diversity of the Latino community and promote cultural exchange with the Kiwi community in Queenstown.

Mission: To showcase the Latino culture, traditions, and values to the Kiwi community through days of food, music, dance, sports, arts and crafts, and cultural activities, while promoting integration, opening new business opportunities, and fostering cultural exchange. The festivals will also commemorate and celebrate the Independence Day of Argentina, Chile, Ecuador, and other Latin countries.

Goals and Objectives: The goal of the festivals is to celebrate and showcase the Latino culture to the Kiwi community in Queenstown, while commemorating the Independence Day of Latin countries. The main objective is to promote integration, open new business opportunities within the Latino community, and highlight the colourful culture and values they bring to the community.

Market Research: Conduct market research on the Latino and Kiwi communities in Queenstown to understand their cultural interests, preferences, and what they would like to see in the festivals. This will help tailor the festival program to meet the needs of both communities.

Permits: Obtain the necessary local permits from the council to hold the festivals. Make sure all health, safety, and legal requirements are met to ensure the success of the festivals.

Program: Plan the festivals' programs, which could include cultural performances, food stalls featuring Latino cuisine, music, dance lessons, sports demonstrations, arts and crafts exhibitions, and the sale of typical Latino drinks. Consider including activities such as salsa dancing lessons, traditional music performances, soccer matches, and cooking demonstrations to showcase the richness of the Latino culture. Invite

local Latino artists to participate in the festivals and showcase their talents.

To create a robust activities' program, we could add the following actions:

- Conduct additional market research to understand the cultural interests and preferences of the Chilean and Argentinean communities in Queenstown.
- Develop a festival program that includes activities and performances specific to the Chilean and Argentinean cultures, such as traditional dances, music, food, and crafts.
- Include a parade featuring traditional costumes and flags of the Chilean and Argentinean communities.
- Partner with local Chilean and Argentinean associations in Queenstown to ensure the festival represents their culture authentically.
- Offer opportunities for businesses within the Chilean and Argentinean communities to promote their products and services.
- Develop marketing and promotion strategies specifically targeting the Chilean and Argentinean communities in Queenstown.
- Create volunteer programs to involve the Chilean and Argentinean communities in the planning and execution of the festivals.
- Consider involving local government agencies to show them the rich culture and potential of the Chilean and Argentinean communities in Queenstown.

Marketing and Promotion: Develop a marketing and promotion strategy to reach out to the target audience, both the Latino and Kiwi communities, using various channels such as social media, local newspapers, posters, and flyers. Utilise social media, collaborate with the council and local business community, leverage local influencers, offer discounts and promotions, create a festival website, partner with local media outlets, and consider pre-festival events to build excitement.

Logistics: Make sure all logistics are in place, such as security, lighting, sound systems, transportation, and parking arrangements.

Volunteer Program: Develop a volunteer program to involve the community in the planning and execution of the festivals. This will help generate support and create a sense of ownership in the community.

Commissions: Consider creating different commissions within the Latino community group, "Latinos for New Zealand," to manage specific aspects of the festivals, such as marketing, logistics, and volunteer management. This will ensure the effective planning and execution of the festivals while promoting community involvement and ownership.

Evaluation: After the festivals, evaluate the success of the events, gather feedback, and identify areas for improvement for future festivals.

Data Collection and Analysis: Take advantage of the festivals to gather data from the public to design a metric chart and analyze the results. Use this information to secure more funding and increase representation for the Latino community in New Zealand.

Invitations to Local Government Agencies: Make formal invitations to local government agencies to attend the festivals and show them what the Latino community is capable of organising. This can help build relationships with these agencies and potentially lead to future partnerships and support.

Task Chart: Prepare a chart to keep track of the tasks and their level of accomplishment by each of the responsible commissions. This chart should include task, person in charge and time frame for accomplishment.

Festival Details: The festivals are organised by "Latinos for New Zealand" and will take place on July 9 Th. and August 5 Th., 2023, at the Memorial Center in Queenstown, from 2 pm to 9 pm. Alcohol will be sold

Strategic Marketing Plan

The following plan will be used in or all three festivals:

Overview:

This marketing plan is aimed at promoting three festivals that celebrate the Latin culture in Queenstown, New Zealand. The festivals are the Chilean Independence Day Festival, the Argentinean Independence Day Festival, and the Latin Kiwi Festival. The objective of this marketing plan is to increase the visibility of the festivals and attract a diverse audience, both the Latin and Kiwi communities. The plan will utilise various marketing channels to reach out to the target audience and create a buzz about the festivals.

Target Audience:

The target audience for the festivals is the Latin community living in Queenstown and the Kiwi community interested in experiencing and learning about the Latin culture. The marketing plan will aim to reach out to these audiences through different marketing channels.

Marketing Channels:

1. **Social Media:** Utilise social media platforms such as Facebook, Instagram, and Twitter to promote the festivals. Develop a social media campaign that includes pre-festival teasers, updates, and highlights. Collaborate with influencers and ambassadors from the Latin and Kiwi communities to increase reach and engagement.
2. **Local Media:** Partner with local media outlets, such as newspapers, radio stations, and TV channels, to advertise the festivals. Offer exclusive interviews and behind-the-scenes access to generate excitement about the festivals.
3. **Flyers and Posters:** Distribute flyers and posters in strategic locations, such as community centres, local businesses, and tourist information centres, to promote the festivals.
4. **Festival Website:** Create a festival website that includes all the necessary information about the festivals, such as date, time,

location, and programme. The website should also include a ticketing system for the festivals.

5. **Word-of-mouth:** Encourage the Latin and Kiwi communities to spread the word about the festivals by sharing information about the festivals with their friends, family, and colleagues.

Marketing Strategies:

1. **Influencer Marketing:** Partner with local influencers and ambassadors from the Latin and Kiwi communities to increase reach and engagement. These influencers could include social media influencers, bloggers, and local celebrities.
2. **Collaborations:** Collaborate with local businesses and organisations to promote the festivals. Offer special discounts and promotions to customers who attend the festivals. Also, consider partnering with local food and beverage vendors to provide food and drinks at the festivals.
3. **Pre-Festival Events:** Host pre-festival events, such as dance lessons, cooking classes, and music performances, to generate excitement about the festivals. These events will also provide an opportunity to showcase the Latin culture and values to the Kiwi community.
4. **Ticketing:** Offer early bird discounts and promotions to encourage people to purchase tickets in advance. Also, offer a package deal for people who want to attend all three festivals.
5. **Volunteer Program:** Develop a volunteer program to involve the community in the planning and execution of the festivals. This will help generate support and create a sense of ownership in the community.

Evaluation:

After the festivals, evaluate the success of the marketing plan by gathering feedback and data from attendees, sponsors, and partners. Use this information to identify areas for improvement for future festivals and adjust the marketing plan accordingly.

Socio-Economic Impact - Latin Kiwi Festival April 2023

Executive Summary:

The Latin Kiwi Festival, held in Queenstown, had a significant social and economic impact on the local community. The festival brought together a diverse range of attendees from various ethnic backgrounds, providing an opportunity for cultural exchange and community building. The event also generated substantial revenue for the local economy, benefiting local businesses and service providers.

Social Impact:

The Latin Kiwi Festival was successful in creating a positive social impact within the community. The festival provided an inclusive environment for attendees from different ethnic backgrounds, promoting cultural exchange and social cohesion. The event attracted almost 1000 attendees, with approximately 40% of attendees being Brazilian and the remaining attendees consisting of various Latino communities, Kiwis, and Asians. The festival served as a platform for these communities to celebrate and showcase their cultures and traditions, fostering a sense of belonging and community spirit.

The festival provided an opportunity for attendees to interact with members of different communities, fostering cross-cultural understanding and appreciation. Attendees participated in various cultural activities, such as dance performances, traditional food tasting, and live music, contributing to the event's vibrant and inclusive atmosphere.

Economic Impact:

The Latin Kiwi Festival generated a significant economic impact for the Queenstown community. The festival attracted attendees from outside the region, generating tourism revenue for the local economy. The event also provided a boost for local businesses, such as food vendors, merchandise sellers, and service providers.

Based on attendance numbers, it can be estimated that the festival generated significant revenue for local businesses. The event provided a platform for local vendors to showcase and sell their products and services, contributing to the local economy. The event also generated revenue for service providers such as security, medical, and transport services.

The festival's economic impact is expected to have a ripple effect in the future, as it will attract more tourists to the region and encourage more investment in local businesses.

Conclusion:

The Latin Kiwi Festival had a significant social and economic impact on the Queenstown community. The event provided an inclusive platform for diverse communities to celebrate and showcase their cultures and traditions, promoting social cohesion and cross-cultural understanding. The festival also generated significant revenue for the local economy, benefiting local businesses and service providers. The success of the event highlights the potential for future festivals to continue to generate positive social and economic impacts for the Queenstown community.

Results Brief Latin Kiwi Festival April 2023

Introduction:

The Latin Kiwi Festival was held on the 15th of April in Queenstown, New Zealand. The festival was attended by between 800 and 1000 people, with almost 40% of attendees being Brazilian and the rest of the total being divided among other Latino communities, Kiwis, and Asians. This festival had a significant impact on the local community and the wider region. In this plan, we will present the statistics and effects of the festival on different ethnic communities.

Statistics:

1. Attendees: As mentioned before, the festival had between 800 and 1000 attendees. Of these attendees, almost 40% were Brazilian, and the rest were a mix of other Latino communities, Kiwis, and Asians.
2. Age range: The age range of attendees was diverse, with the majority falling between the ages of 20-40 years old.
3. Gender: Attendees were evenly split between male and female.
4. Geographic location: Attendees came from different parts of New Zealand, with the majority coming from the South Island.

Effect on ethnic communities:

1. Brazilians: The Latin Kiwi Festival provided a platform for Brazilians to celebrate their culture and connect with others in the community. The festival included Brazilian music, dance, and food, which allowed Brazilians to feel a sense of belonging and pride in their heritage. The festival also provided an opportunity for Brazilians to share their culture with others, which can help to break down stereotypes and increase understanding and respect for their community.

2. Other Latino communities: The festival also had a positive impact on other Latino communities, including Argentinians, Uruguayans, Peruvians, Chileans, and Colombians. These communities were able to connect with each other and celebrate their shared heritage. The festival provided a platform for these communities to showcase their culture and educate others about their traditions and customs.
3. Kiwis: The festival provided an opportunity for Kiwis to learn more about Latino culture and connect with people from different backgrounds. This can help to break down barriers and increase understanding and acceptance between different ethnic communities in Queenstown.
4. Asians: The festival provided an opportunity for Asians to experience Latino culture and connect with people from different backgrounds. This can help to promote diversity and inclusivity in the community and foster a sense of belonging for all.

Economic impact:

1. Local businesses: The festival had a positive impact on local businesses, including restaurants, bars, and accommodation providers. Many festival attendees stayed in Queenstown for the weekend, which provided a boost to the local tourism industry. Local businesses also had the opportunity to sell their products and services at the festival, which helped to increase their revenue.
2. Employment: The festival created job opportunities for locals, including event staff, security, and vendors. This helped to provide a boost to the local economy and increase employment opportunities for people in the community.
3. Future impact: The success of the Latin Kiwi Festival has the potential to attract more visitors to Queenstown in the future. This can help to increase revenue for local businesses and create more job opportunities in the tourism industry.

Conclusion:

The Latin Kiwi Festival had a significant impact on the local community and the wider region. It provided an opportunity for different ethnic

communities to connect and celebrate their shared heritage. The festival also had a positive impact on local businesses and created job opportunities for locals. The success of the festival has the potential to attract more visitors to Queenstown in the future, which can help to increase revenue for local businesses and create more job opportunities in the tourism industry.

Latinos for New Zealand can incorporate each of the community Value Vision Statements 2050 Queenstown in the organization and support of the Latin integration community festival

1. **Thriving people:** Latinos for New Zealand can focus on promoting the health and well-being of the Latin community through initiatives such as health education workshops, access to health services, and mental health support. The organization can also provide information on employment opportunities, education, and training.
2. **Living Te Ao Māori:** The organization can work with local iwi and Māori communities to incorporate Māori culture into the festivals, such as having a powhiri (Māori welcoming ceremony) and kapa haka (Māori performing arts). Latinos for New Zealand can also promote Māori language and culture through educational workshops and activities.
3. **Opportunities for all:** Latinos for New Zealand can ensure that the festivals are inclusive and accessible for everyone in the community. This can be achieved by providing information in multiple languages, ensuring the venues are accessible for those with disabilities, and creating opportunities for people of all ages to participate.
4. **Breathtaking creativity:** The organization can promote creativity and artistic expression by providing a platform for Latin artists to showcase their work. This can include visual art, music, dance, and theatre. The festivals can also include workshops and activities that encourage participants to express themselves creatively.
5. **Deafening dawn chorus:** Latinos for New Zealand can work with local conservation groups to promote the protection and conservation of local flora and fauna. This can include activities such as planting native trees and providing information on how to reduce waste and live sustainably.
6. **Zero carbon communities:** The festivals can promote sustainable practices, such as reducing waste, recycling, and using renewable energy sources. Latinos for New Zealand can also provide information on sustainable living and promote environmentally friendly products and services.

7. Disaster-defying resilience: The organization can work with local emergency services to promote disaster preparedness and resilience. This can include workshops on emergency planning and response, as well as information on how to stay safe during natural disasters.
8. Pride in sharing our places: Latinos for New Zealand can celebrate the diversity and beauty of New Zealand by showcasing local attractions and promoting tourism. The festivals can also include cultural exchange activities, such as showcasing Latin culture and learning about local Māori and Pacific Island cultures.

Latinos for New Zealand

Latin Kiwi Integration Festivals Economic Impact Plan for Queenstown, New Zealand

Introduction:

The Latin Kiwi Integration Festivals aim to showcase the diversity and cultural exchange between the Latin and Kiwi communities. In addition to the cultural benefits, these festivals will also have a positive economic impact on Queenstown, New Zealand. This plan aims to outline the economic impact of the festivals on the local community.

Economic Impact:

1. **Increased tourism:** The festivals will attract a large number of visitors, including locals and tourists from other parts of New Zealand and overseas. This influx of visitors will have a positive impact on the local economy by generating revenue from increased accommodation bookings, restaurant sales, and shopping activity.
2. **Job creation:** The planning and execution of the festivals will require a significant amount of manpower, and the hiring of local workers for various tasks such as event setup, ticket sales, security, and food service will create temporary employment opportunities.
3. **Local business promotion:** The festivals will provide an opportunity for local businesses to showcase their products and services. This could include food vendors, local artisans, and retail outlets, among others. This exposure could lead to increased sales and promotion of the businesses.
4. **Increased tax revenue:** The festivals will generate tax revenue for the local government. This will include GST, income tax, and any other taxes that may be applicable to the festival activities and services.
5. **Community involvement:** The planning and execution of the festivals will require collaboration between various stakeholders, including the Latin and Kiwi communities, local government agencies, and businesses. This involvement will foster a sense of community and promote collaboration and cooperation between the different groups.

Conclusion:

The Latin Kiwi Integration Festivals will have a significant economic impact on the Queenstown community, both in the short and long term. The festivals will bring increased tourism, job creation, promotion of local businesses, increased tax revenue, and community involvement. The economic benefits of the festivals will provide a positive return on investment for the community and support the ongoing growth and development of the local economy.

Considering that in our first Latin iwi Integration Festival, we reached almost 1000 people, it is important to consider the ripple effect for the future in terms of the economic impact for our town. Here are some factual indicators:

1. Direct revenue generation: With almost 1000 people attending the festival, there was a direct generation of revenue through ticket sales, food and beverage sales, merchandise sales, and sponsorship revenue. This revenue will contribute to the local economy of Queenstown, creating a boost in the short term, and could have a positive ripple effect in the future if attendees are motivated to return to the town for future events.
2. Increase in tourism: A successful festival can draw the attention of people from all over New Zealand and even internationally, resulting in an increase in tourism to the area. With almost 1000 people attending the festival, there is the potential for these attendees to stay longer in the area and visit other local attractions, resulting in increased revenue for local businesses and a positive impact on the economy.
3. Job creation: The festival required various services to be carried out, such as catering, event management, security, and hospitality, which created job opportunities for locals. With almost 1000 people attending the festival, there was a need for a larger workforce, creating employment opportunities that could help reduce the town's unemployment rate in the short term.
4. Support for local businesses: The festival provided a platform for local businesses to showcase and sell their products and services, creating an opportunity to reach a wider audience. With almost 1000 people attending the festival, local businesses such as restaurants, cafes, and

retail shops would have seen an increase in revenue, and could continue to benefit in the future through new customers and brand awareness.

5. Community involvement: The festival brought together members of the local community, creating a sense of involvement and ownership. This sense of community spirit is likely to continue, leading to further community-led initiatives and events in the future.
6. Boost to the town's image: A successful festival can contribute positively to the town's image and reputation, attracting further attention and potential tourism in the future. With almost 1000 people attending the festival, word-of-mouth marketing is likely to have spread, creating awareness of the town and its attractions to a wider audience.

Overall, the economic community impact of the Latin Kiwi Integration festivals for Queenstown New Zealand was significant, with almost 1000 people attending and contributing to the local economy. The potential ripple effect for the future is also promising, with the festival potentially contributing to increased tourism, job creation, and support for local businesses, while fostering a sense of community involvement and boosting the town's image.

Q22. Please tell us more about your position on the proposed changes to the Capital Expenditure programme

I want Council to include an allocation in the Plan to construct desperately needed facilities at the Waiorau Recreation Reserve, including toilet facilities and associated infrastructure, dedicated carparking, a community facility to provide shelter, a lunch room and a teaching educational facility at the Reserve.

Q23. Please use this space to comment on any aspect of the draft Annual Plan 2023-2024

Waiorou Recreational Reserve. The reserve is a fantastic community asset that is also the only easily accessible cross country and snow shoeing facility in New Zealand. It draws in locals and people from much further afield to enjoy the pristine environment. It also helps to contribute to the local economy. However, it desperately needs basic facilities such as toilets, shelter, lunch room and facilities to support the sport. Given the exposed environment the proposed facilities will help to keep people on the mountain safe.

Q24. Do you wish to also apply for a Community Grant? No

Q25. Please provide details about your group or organisation

Less than the rate of inflation
- Q11. **What is your position on the proposed changes to waste services fees?** Oppose
- Q12. **Please tell us more about your position on the proposed changes to waste services fees**
less than the rate of inflation so should be increased to cover costs and encourage waste reduction in community
- Q13. **What is your position on the proposed changes to sport and recreation fees?** Oppose
- Q14. **Please tell us more about your position on the proposed changes to sport and recreation fees**
increases seen very high especially swimming lessons. Given that we have a lot of natural water around our district we should be encouraging school children to swim not making it financially difficult.
- Q15. **What is your position on the proposed changes to community facilities fees?** Neutral
- Q16. **Please tell us more about your position on the proposed changes to community facilities fees**
not answered

Q17. What is your position on the proposed changes to animal control fees? Oppose

Q18. Please tell us more about your position on the proposed changes to animal control fees

I recommend that council reviews dog registration charges and allocates the cost of service between pet dogs and working dogs to the appropriate category. Farmers have no choice but to have working dogs and these are generally not the dogs that cause issues within our community. A dog registration fee set too high will cause dog owners of both categories to not register their dogs. This has ongoing implications for the community, public safety, and animal health in terms of T. ovis eradication. A comparison with neighboring councils current charges shows CODC working dog registration at \$45 and Clutha DC at \$12. This would suggest some incredible inefficiencies in the QLDC processing and dog control team. I note that dog control fees are taken from user pays, the Governance and Regulatory charge and the Regulatory rate differential and I wonder just what the true cost of dog control in the district actually is per dog compared to what is being charged. I would also suggest that a rebate scheme is introduced for volunteer dogs in authorized schemes like Hone Hato St John therapy pets.

Q19. What is your position on the proposed changes to parking fees in the Queenstown Town Centre? Neutral

Q20. Please tell us more about your position on the proposed changes to parking fees in the Queenstown Town Centre

not answered

Q21. What is your position on the proposed changes to the Capital Expenditure programme? Neutral

Q22. Please tell us more about your position on the proposed changes to the Capital Expenditure programme

It's only going to be more expensive in the future. I suggest that priorities works that are must haves and do them as soon as possible while cutting out some nice to haves (like street /lakefront beautification)

Q23. Please use this space to comment on any aspect of the draft Annual Plan 2023-2024

I believe that the UAGC is not being used to its full potential and should be increased to capture more public good benefits. Like school swimming. I don't believe that Primary industry should have the highest Govt. and regulatory charge, but they should all be equal and maybe added to the UAGC. I question why the general rate differential is higher on Primary Industry than vacant sections and residential when the net effect is the same. A farm could be described as being vacant land plus a residence. Council now has a reduced responsibility, if at all any responsibility, for rural fires and yet still seem to be collecting this through the general rate. Not all the district is in the wilding pine control area and yet the whole district is being charged through the general rate. This also should be added to the UAGC as an individuals contribution should not be based on their property value. I wonder if this is seen as a primary industry issue and so loading up the differential, whereas the whole district benefits from wilding pine control through landscape values and biodiversity values. Individual landholders pay again when work is being done on their own properties so the QLDC should only be collecting the public good share and not loading this onto primary industry properties.

Q24. Do you wish to also apply for a Community Grant? No

Q16. Please tell us more about your position on the proposed changes to community facilities fees

I am the owner of the Wanaka Swim Academy. I conduct Learn to Swim lessons at the Wanaka Recreation Centre for the children of our district. I acknowledge that commercial hire fees have not increased for quite some time, but to make a 74% increase is completely unfair and will affect all local families and be extremely detrimental to the safety of our children. We live close to water and it is imperative that the children learn water safety skills that could keep them safe. Obviously, I will need to pass some of this cost on to my families which will, for sure, make my services unaffordable for some. Those children will be prevented from learning to swim and this should be affordable to all children in our district. Already we keep our prices down as much as we can to ensure that our children are all given the opportunity to learn these skills. For many years, there has been a feeling amongst my families that the council are double dipping/ triple dipping by charging them rates and pool entry fee as well as the Academy paying hire fees for the pool space that they use, and I agree. An increase of 10-15% is plausible, even 20% in this area of the District Plan, but 74% is completely unreasonable. I note that this is the largest increase bracket over all areas of increase. I implore you to reconsider the commercial hire pool charges for Learn to Swim groups in your plan for the sake of the children in our community

I propose that there are facilities available at the Waiorau Recreational Reserve. This is a popular cross country ski area which we have visited as a family every Winter for 30 years. It is a lower cost ski area for a unique sport, the only place in NZ. The sport has encouraged new and recognised athletes, it is family friendly, enabling all ages to get out and exercise on the mountain. The area is now desperately short of toilets and shelter for lunches. Not providing these essential facilities could mean that it is no longer safe or possible for families to visit. Please consider encouraging this sport, so it can continue in NZ.

Q24. Do you wish to also apply for a Community Grant?

not answered

Q25. Please provide details about your group or organisation

Mana Tāhuna Charitable Trust was established in June 2020 by the 2000-strong Māori community. A need for a Kaupapa Māori organisation that allowed whānau the opportunity to connect, grow, be healthy and thrive as Māori in Tāhuna - Queenstown. The covid-19 pandemic was the call to action that saw that seed grow into the Mana Tāhuna Charitable Trust korowai of support and 28 passionate kaimahi we see and operate with today. We engage with whānau through our services across five pou, or departments, a pillar of Te Ao Māori, Rakatahi - Youth, Health and Social Services, Mahi Taiao (Environmental work) and pathways and innovation. We have grown as an organisation since inception and now operate two premises in Frankton, our head office in Sutherland Lane (Glenda Drive) and whānau hub Te Hoeroa in Remarkables Park.

Q26. Did you receive a community grant from QLDC in 2021-2022 or 2022-2023?

No

Q27. If yes, what was the purpose of the grant and the total amount of community grant funding you or your organisation received from QLDC in 2021-2022 and 2022-2023?

not answered

Q28. How much funding are you or your organisation requesting for 2023-2024?

50000

Q29. What community projects or operational services will these funds be used to deliver?

Our vision is a united Māori and wider community, with an abundance of opportunities that sees whānau successful and thriving. Our kaupapa is underpinned by that vision, we want our whānau struggling through education, the justice system or Māoritanga connection, to be resilient and have a place to safely be Māori and grow. As kaitiaki for our takiwā and whenua, we see our role as leaders in biodiversity efforts in our area and rehabilitation of our catchments and waterways. The requested funding will be used to support the operating costs of the following Pou; Te Ao Māori - our fit for purpose whānau hub – Te Hoeroa – where we operate our programmes for Rakatahi and in need adults. Te Hoeroa is a drop in centre for whānau in need and is predominantly used by rangatahi as a pillar of Te Ao Māori support and whānau navigating the justice system. Food securities programming - For the last 12 months we have offered a hunting and foraging course to over 70 whānau to build kai sovereignty and resilience in whānau. Our kaimahi ensure whānau have knowledge, capability and experience to be self sufficient and less dependent on food banks. This is self funded. Mahi Taiao - We are on a mission to ensure waterways are drinkable, starting with Te Wai Whakaata lakes Hayes funded through Jobs For Nature. As we transition out of DOC funding, we require support to ensure we can maintain our gains through into the future. We see injecting technology as a key component to this whilst also supporting regional goals in climate control and carbon emissions.

Q30. How will this investment in your project or organisation be of value to the wider community?

We know from QLDC 2020 survey that 42% of Māori are uncomfortable being Māori in Tāhuna, we want to stand up and provide barrier free opportunities that increases that to 75% through services provided. We want to have a tangible impact reducing the amount of whānau on our MSD Jobseeker benefit and enable them to explore opportunities, we have a bold target of 10% reduction annually. We have a goal of 100% of whānau through Te Hoeroa in our drug and alcohol programme to be rehabilitated with no relapses within 12 months through our pastoral support in collaboration with Police and Corrections. We want to strengthen the dawn chorus through our mahi at Te Wai Whakaata whilst ensuring our waterways are swimmable and drinkable. We want our whānau and community to be resilient to disasters, as we have through our covid support. We will build kai sovereignty and resilience through our food security programming.

Q31. How will this investment in your project or organisation support the outcomes of our community’s Vision Beyond 2050?

- Thriving people
- Living Te Ao Māori
- Deafening dawn chorus
- Pride in sharing our places

Q32. What other funding have you have applied for or confirmed for 2023-2024 to support this project or the operational services of your organisation?

We have confirmed funding through Central Lakes Trust, Department of Conservation, Ministry Social Development.

Q33. Please upload any supporting documentation for your application here

Q34. I understand that all submissions and community grant applications will be treated as public information.

Tumu Whakarae | Chief Executive Officer

Ko Wai Mātou?

Mana Tāhuna Charitable Trust was born from a seed planted by Tāhuna Māori for the past several decades. That seed was hope, want and need for a kaupapa Māori organisation that allowed whānau the opportunity to connect, grow, be healthy and thrive as Māori in Tāhuna - Queenstown. Established in 2020, the covid-19 pandemic was the call to action that saw that seed grow into the Mana Tāhuna Charitable Trust korowai of support we see and operate today.

Kaupapa

Te Ao Māori
A pillar of Te Ao Māori for Tāhuna

Mahi Taiao
Taiao Restoration mahi

Innovation and Pathways
Leading innovators across our pou

Rangatahi
Youth Hub and services

Health and Social Services
Pastoral care for whānau

Our Mahi

2021/2022

Taiao

- 40,000 Total plants planted across three catchments
- Two tonne of Venison taken out of the Taiao and into food banks
- 10+ Hectares pest controlled

Social Services & Employment

- 590 whānau supported through connector service and covid isolations
- 20 whānau supported weekly in counselling
- 35 whānau into employment | 8 rangatahi into apprenticeships

Te Ao Māori

- 45 whānau through Te Reo programmes
- 75 whānau engaged in Toi Māori and mokopapa
- Over 2500 attendees across Waitangi | Matariki | Te Wiki O Te Reo Māori celebrations 2022

Rangatahi

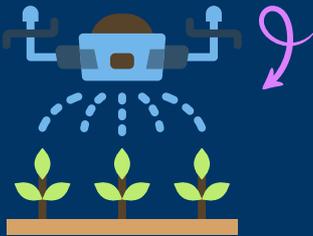

- 260 engagements through Te Hoeroa - our youth hub
- 8 rangatahi supported financially through our Tauira support fund

Our Future

On a mission to self sustainability - We are working hard to be at the forefront of innovation across all our services

Innovative Tech for Taiao

Drone seeding & Pest control | App development | Drone land use surveying

Shaking up Social services
Removing barriers through innovative engagement
App development | Real time connectivity

Te Ao Māori & Rangatahi

Innovative connection to Te Ao Māori for Tāhuna
Digital story telling | Machine Learning | Tech Pathways

Partner with us

We are looking for genuine and meaningful partnerships to ensure our mahi is permanent

There are more registered dogs in the district, therefore more fees to the council. Why do you need to increase the fees. Dogs get people out exercising, great company , good for peoples well being. Good dog ownership should be encouraged.

Q19. What is your position on the proposed changes to parking fees in the Queenstown Town Centre? Neutral

not answered

Q21. What is your position on the proposed changes to the Capital Expenditure programme? Oppose

Q22. Please tell us more about your position on the proposed changes to the Capital Expenditure programme

I want Council to include an allocation in the Plan to construct desperately needed facilities at the Waiorau Recreation Reserve, including toilet facilities and associated infrastructure, dedicated carparking, a community facility to provide shelter, a lunch room and a teaching educational facility at the Reserve. Many residents in our district can not afford to go to down hill ski facilities in QLDC. However the Snowfarm is a significantly less expensive option to get the kids up into the snow. Cross country skiing is much cheaper than downhill skiing, a great aerobic workout, fantastic fun and a super friendly activity. You can take the dog and have a wonderful day out, walking, skiing, tubing all at a resonable cost for local families. The Snowfarm needs QLDCs urgent help to keep this wonderful facility available to the locals this year. The Snowfarm , as you know does have reat plans for the future but there have been many delays. So a temporary fix from QLDC is required. No toilets or shelter is a significant health and safety issue. Please help.

Council needs to include funding in the Plan for CAPEX to provide essential services at the Waiorau Recreation Reserve which gets substantial public and visitor use in the winter. These services are required for the Reserve to be a safe and family friendly area for both winter and summer recreation. There are currently no public toilets creating a risk to public health of unsanitary conditions for families, children and visitors. The current lack of a dedicated public parking area creates a significant safety hazard, especially in the winter when at times the Southern Hemisphere Proving Ground has multiple vehicles, including large trucks and cars undergoing testing arriving and transiting the area around the entrance to the Reserve area hourly. At present the only parking is along the busy road leading into the Reserve requiring the public to walk along the road to reach the Reserve and crossing a Proving Ground vehicle track. There is currently no public shelter, putting the public at risk when sudden weather changes can occur in the winter. The Reserve is heavily used by schools in the winter. In recent years the Reserve has received very high visitor use on days when the nearby Cardrona Ski Field is at capacity - many tourists use the Reserve as an alternative destination for winter sports at these busy times. I want Council to include an allocation in the Plan to construct essential facilities at the Waiorau Recreation Reserve, including toilet facilities and associated infrastructure, dedicated carparking, and a community facility to provide a shelter, a lunch room and a facility that school groups can use at the Reserve.

Friends of Wakatipu Gardens and Reserves (FOG) request to continue to assist the Wakatipu community to engage in any decisions/plans involving our Gardens and Reserves. This can be achieved by continuing discussions with QLDC and adequate funding from QLDC to progress mutually agreed outcomes, for the benefit of the local community and visitors. The Gardens, in particular, are of historical and local importance and as such it is imperative decisions regarding its management and up keep are shared with our community and its input taken on board. FOG was formed to assist QLDC with local knowledge and sharing of ideas, not restricted to the Gardens but all Reserves in general. It is heartening to see there is a plan to development Warren Park from a long neglected community asset into a recreational and entertainment area. Warren Park is one of two recreational areas in central Queenstown in a high density area. With the population in this area increasing and set to continue to do so with the development of the Ngai Tahu site bordering it there is an urgent need for a community space to support its needs. Warren Park is well utilised by joggers, dog walkers, yoga enthusiasts, cricket practice, cultural and entertainment events etc. It is also part of the Gorge Road wetlands to which it reverts to if the is significant rain. Heavy vehicles in these conditions cause mud and ruts over the grounds which are health and safety hazards for users. QLDC should prevent events setting up when it is swampish and require event organisers to pay for damage caused in a timely ways. Access to stages etc should be of a good structure avoiding damage to the grass. There is an urgent need for rubbish bins, suitable for disposal of dog droppings and picnic tables for local workers who choose to have lunch there. Horne Creek along side of Warren Park is also in need of a clean up by the appropriate authority and the fence will need attention if a playground in to be next to it. WFOG appreciates the opportunity to submit on these matters.

QLDC needs to make provision in this year's CAPEX for the construction of essential services at the Waiorau Recreation Reserve - at a minimum these include public toilets and a shelter from the weather as the Reserve is more than 1400m above sea level and subject to changeable and extreme weather. At present there is no public shelter or toilets - the nearest public toilets to the Reserve are located at Cardrona village, more than 16 km away. There is no dedicated public parking area - on busy days in winter there may be more than 50 vehicles visiting the Waiorau Snow Farm cross country area at the Reserve. The Reserve is heavily used by school groups. There is no safe area for school busses to disembark, park and load when school groups visit. A well marked, sealed and fenced, level parking area needs to be provided. The Waiorau Recreation Reserve provides affordable and low cost access to winter sports for QLDC residents and families that cannot afford the very high costs of the four downhill ski resorts in the District. It deserves better support from QLDC - at the minimum in the form of providing essential basic services for public health and safety in this year's CAPEX provision.

Now is the time to continue to build infrastructure especially if a recession reduces construction costs. To consider is whether alternatives to funding such as surplus assets owned by QLDC should be sold

Q23. **Please use this space to comment on any aspect of the draft Annual Plan 2023-2024**

There are significant development contributions arising during FY24 and beyond from the rapidly processing Mt Cardrona Station Village development and we would like QLDC to consider reinvesting these contributions into the local Cardrona community on reserves vested or access easements available as follows: 1. The Mt Cardrona Station reserve to be vested becomes a Community Park; 2. That the reserve improvements are established with the community park such as: a) cycle and walkway tracks linking the Cardrona township with and through the Mt Cardrona Station Village special zone to the community park; b) pump track and playground structures/exercise areas; c) landscaped areas and play/picnic and BBQ areas etc; 3. That community facilities such as tennis courts, public toilets and a small scale building to house and present Cardrona heritage is established at the community park;

Q20. Please tell us more about your position on the proposed changes to parking fees in the Queenstown Town Centre

not answered

Q21. What is your position on the proposed changes to the Capital Expenditure programme? Oppose

Q22. Please tell us more about your position on the proposed changes to the Capital Expenditure programme

Urgent attention required for toilet facilities at Waiorau Recreation Reserve. Also associated infrastructure, dedicated carparking, a community facility to provide shelter, a lunch room and a teaching educational facility at the Reserve. This is vital and needs the Councils urgent attention if this community facility is to operate for winter 2023. Unlike other ski fields the patronage is predominantly Queenstown Lakes local community so any funds spent directly benefit our community.

Arthurs Point Community Association

Annual Plan Submission 2022

Arthurs Point Community Association 2023 Annual Plan submission is as follows.

1 PEDESTRIAN ACCESS AROUND ARTHURS POINT

Introduction

There has been some great progress with pedestrian and cycling upgrades within parts of Arthurs Point recently and confirmation of funding for the upgrades to the active travel cycleway into town is very well received, thank you. It would be great to continue this momentum and continue to develop towards a safe and connected network of trails and facilities for non-motorised transport.

Request 1

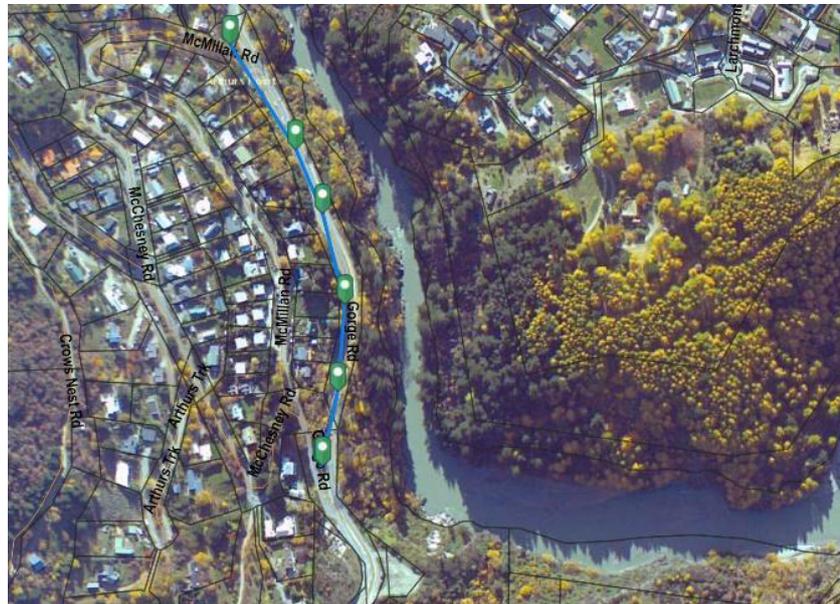

APCA request QLDC to provide funding to continue with Stage 2 of the Arthurs Point Cycle and Pedestrian improvements to the Edith Cavell bridge. We are keen to hear more about stage two of the project (QLDC plan attached below) and what plans Council has to deliver it. We expect foot traffic to increase due to utilisation of the active travel network, in particular when the new route to town is completed.

Request 3 – Gorge Road, McMillan Road to Bus stop

This portion of road represents the largest “missing link” in the community and would allow pedestrian access along a narrow part of the road which is arguably one of the most dangerous for pedestrians / cyclists along with safe access to bus stops for Old Arthurs Point residents. It would also complete a major piece of the puzzle for AP access into the town centre.

We request that funding for a shared path, or at least the investigation and design of such, in this area be included in the Annual Plan. We understand there has been recent significant development contributions made in this location and we would like to see this benefitting the area.

2 TRAFFIC CALMING

The speed of vehicles travelling through the middle of Arthurs Point is meant to have decreased with the recent lowering of the speed limit from 70km/h to 50km/h. However there are still a high number of vehicles that travel at speeds well in excess of this speed, as can be seen in recent speed survey results and the number of infringement notices being issued. This presents a real and significant danger to people in the community, particularly pedestrians and cyclists.

Request 5 - Traffic Calming

We request funding be included in the annual plan to investigate and implement traffic calming measures in key locations such as near the intersection of Atley/Morning Star/Arthurs Point Road, the commercial area and at the Gorge road entrance to the community.

Specifically we request that Council implement Road Safety Platforms (RSP's) to address speed management in these areas. The treatment is capable of reducing the maximum comfortable operating speed for a vehicle, thus lowering the overall speed of vehicles to a Safe speed at high pedestrian junctions, and near bus stops and high movement areas.

3 EDITH CAVELL BRIDGE

Request 6 - Alternative Crossing of Shotover River for Pedestrians/Cyclists

It was great to see the bridge feasibility study get underway . While we are not aware of the results of this investigation, we are hopeful that the investigation and design momentum will continue. In particular it would be good to see funding for the bridge construction pulled forward into the next three year funding cycle, we understand this is not currently the case.

To highlight the main reasons the project should be prioritised;

- No safe pedestrian and cyclist access on the bridge for users of all ages. Presents a major barrier to active transport modes for travel to Queenstown. New replacement barriers at one end of the bridge has removed safe access onto the bridge for pedestrians to access.
- High level of utilisation by visitors for photography causing safety issues.
- Major choke point in the Wakatipu transport network, particularly if there is an incident located elsewhere that diverts traffic. I.e. when Frankton Road is closed.
- Continuing development around the basin. With the announcement of Flint's Park West being approved by Central Government, it is going to put more pressure on the State Highway Shotover Bridge and create an alternative route to town through the middle of Arthurs Point.
- It is a natural continuation of the \$10.5M upgrade of the cycleway from McChesney Bridge to town.
- QLDC continuing to promote Malaghan/Arthurs Point Road/Gorge Road as an alternative links to Queenstown via VMS at peak periods, e.g. December/January holidays.
- Other key bridges users include Arrowtown, Millbrook, Dalefield and SC/LHE. Congestion at peak times with increasingly long wait times.

- When the last survey of Arthurs Point residents was carried out 50% of respondents noted the Edith Cavell bridge to be a top issue. Comments include; 'waiting times are going to increase exponentially again' and 'becoming unacceptable', 'bad traffic on bridge', 'seasonal traffic worsening', 'need to allow full bike access to town / over bridge'.

APCA would like to continue to be informed and consulted on this project.

4 COMMUNITY GRANT APPLICATIONS

Arthurs Point Community Association (APCA) have already applied for the \$5,000 annual grant for the upcoming 2023/24 financial year through the 10 year plan process. The APCA is immensely grateful for this opportunity.

Summary

Thank you for considering our submission on the Annual Plan. Should you require further information please contact us at the email below.

A representative from the Arthurs Point Community Association committee will be available to be heard at the hearing.

Regards,

Andrew Blackford
Chairperson on behalf of Arthurs point Community Association

Q23. Please use this space to comment on any aspect of the draft Annual Plan 2023-2024

I fully support the excellent submission of Friends Of Bullock Creek opposing the deferral of \$6 million allocated to the Stone Street Stormwater upgrades. Their submission is comprehensive, relevant and well reasoned. Stormwater upgrades are absolutely needed in this area because of ageing and (more recently) inadequate infrastructure, in a context of increased urban development. Contamination events in Bullock Creek, the jewel in Wanaka's crown and a centrepiece of the township, are serious and ongoing, as recently as Easter this year. The health of the creek and the receiving lake waters need to be a high priority for council spending, not a low one. Any past planning mistakes that have allowed this situation to develop, most specifically deficient stormwater disposal at the Alpha Series development, must be understood and remedied so such events do not happen in future. Therefore I request that Council not defer spending of \$ 6 million for the Stone Street Storm Water upgrade within the Draft Annual Plan 2023 – 2024. I further ask that additional funding be allocated facilitate the urgent upgrades and further analysis to support fresh water health in the township. Thank you for the opportunity to make this submission online.

Submission on QLDC Draft Annual Plan 2023-24

The draft QLDC Annual Plan 2023-24 (hereafter called "the plan"), is a glossy, repetitive piece of camouflage. The bottom line is that Ratepayers are being asked to stump up for a MASSIVE rates increase which is unacceptable.

There appears to be a tendency year on year (mostly) for Council to increase rates more than inflation. This is usually explained or excused by "unforeseen cost pressures". There also appears to be a level of forecasting variation year to year in the 10 year projections that actually belies our ability to predict the future. Why are future annual projected budgets not more evenly spread?

Intuitively it doesn't make sense to have such a jagged (up and down) profile for future budget amounts (graph page 25 of 2023-24 Annual Plan). In particular, it doesn't seem logical to have a massive rates increase this year, followed by a comparatively diminutive budget the following year (2024-25). It is noteworthy that the two highest budgets are the current year and next year. In other words, reflecting costs we know about. With inflation, it is hard to imagine future budgets coming in less than these for the remainder of the 10 year period.

The proposed budget summary can be broken down into the following elements: capex, capex deferral, user charges and financing costs (depreciation, interest charges). The plan discusses at great length the efforts Council have made to mitigate cost increases to ratepayers. For instance, increased user charges will bring in c. \$1.9M of increased revenue. This is paltry in the overall scheme of things. It is nothing but smoke and mirrors. AND it is still a cost impost on the populace.

Similarly, increased depreciation costs are a mere \$1M and increased interest expense is "only" \$10M. It is hard not to believe that some of the increased costs of borrowing are not due to a litany of Council screw-ups (e.g., the Lakeside development, weathertight buildings, Ladies Mile community centre fiascos).

With respect to Capex deferrals, the Council states that the proposed average increase of 13.6% has been kept to a minimum (page 23). But this isn't true.

Given that the proposed budget for 2024-25 is relatively low (as above), Council could defer even more Capex from 2023-24 to 2024-25 (or subsequent) years.

ALSO, more projects could be deferred in Queenstown, in order to distribute the budget more evenly across the district. As it stands, the rates increase is UNFAIR and inequitable. The perennial issue of Queenstown getting most of the attention ahead of other areas (such as Wanaka and Hawea) persists. I live in Hawea Flat, within the Wanaka Ward.

From my best interpretation of the significant projects gazetted for next year (pages 2-21 in the plan), I roughly calculate that there is c. 27M of significant projects for Wanaka, out of a total budget of \$202M. From the 2018 census the Queenstown-Wakatipu Ward and Arrowtown Ward had a combined population of c. 26000. The Wanaka Ward population was c.13000. [Results of the current census are not yet available, but the proportions aren't likely to change much].

The Wanaka Ward has a population half the collective size of the other Wards (or roughly 1/3rd of the District), so should receive one third of the total budget. Instead, the Wanaka budget is approximately 1/7th-1/8th of the total budget.

There is NOTHING in the plan for Hawea Flat. And yet Hawea Flat is not exempt from the proposed high rates increases.

The large proposed rates increase comes on top of a larger-than-inflation increase the previous year. The AVERAGE rates increase last year was c. 6.5%, but my property rates increase was 9.2%. This will now be compounded by another increase this year (I think a minimum of 15.97%, \$457, median Country Dwelling Wanaka, from the Table on page 27 of the 2023-24 draft Annual Plan). These massive double-whammy increases (far above inflation) will be locked into our rates fees in perpetuity.

The elephant in the room in the budget is “Three Waters”-related infrastructure and services. A lot of Capex is dedicated to these services. But, in some areas, properties don’t benefit from these. In Hawea Flat, I pay for my own sewerage disposal (c. \$150/yr). We belong to (and have to self-manage) a local community water supply (\$500/yr levy). Pius, I pay for the cost of my own bore and maintenance). We manage our own storm water drainage.

Water services are a big proportion of the Council’s budget. So, under the principle of user pays, if properties are not receiving water services, they should have commensurately (i.e., markedly lower) rates than other properties that do. The Council states (e.g., on page 27) that there is a rates discount for areas that don't receive certain services. However, the discounted amount isn't much on a per property basis compared with residential properties that receive all the services. The discount should be much more substantial. Clearly, other communal costs (such as libraries, recreation grounds etc) should be paid equally by all.

The variation in rates percentage increases is very opaque. But it seems wrong in principle that Country Dwellings should pay proportionately more rates (or have a higher percentage increase) than Residential Dwellings. Apart from roading to the country dwellings, it is hard to imagine why their rates burden should be higher. Even with roading, there is a lot more usage and wear and tear of roads in residential areas than in the country. Moreover, rural residents may use town facilities (pool, library etc) less frequently than townsfolk. If, for a given area (such as Glenorchy, Kingston, or Hawea Flat), the rates increase is calculated on a low base premise (i.e., a fixed cost spread amongst relatively few properties), then the fixed cost should be less to start with.

All people and all households within the QLDC jurisdiction are obliged to live within their financial means. The council should do so as well.

In summary:

- 1) The percentage rates increase(s) should be much less than those proposed.
- 2) There should be even more deferrals of capex to later years.
- 3) There should be an improved formula for calculating rates (and percentage increases) for properties in areas that don’t receive the benefit of the bulk of the capex expenditure.

Peter King

Q22. Please tell us more about your position on the proposed changes to the Capital Expenditure programme

The Snow Farm/ Waiorau Recreation Reserve is not included in the CEP and needs support to have basic facilities available for the coming winter season. Health and Safety is very important- adequate toilet facilities, shelters at the base are the minimum expected to ensure people of all ages enjoy this wonderful part of QLDC.

not answered

Q24. Do you wish to also apply for a Community Grant?

not answered

Q25. Please provide details about your group or organisation

We are a community group who formed to address the current lack of a town centre plan for Wanaka. We held a town hall event at the Community Hub in 2021 and there was strong feedback that people were concerned that with the continued strong growth in the Upper Clutha, and the return of the visitor economy post-covid, we were at risk of 'losing control' of development in the 'Heart of Wanaka'. Our group has representation from schools, business owners, property owners, and the wider community. We have engaged extensively with stakeholder groups and presented to the Wanaka Upper Clutha Community Board. We have worked with council staff and used the spatial plan, climate and biodiversity plan, 2019 town centre consultation, and our engagement with the community, to develop a strategic plan that encompasses: - physical setting - enhanced ecologies - safe and easy access for all - good open spaces - celebration of our culture - well being of people - high quality built form and infrastructure - a robust and creative economy The current draft plan is accessible at heartofwanaka.com

Q26. Did you receive a community grant from QLDC in 2021-2022 or 2022-2023?

No

Q27. If yes, what was the purpose of the grant and the total amount of community grant funding you or your organisation received from QLDC in 2021-2022 and 2022-2023?

not answered

Q28. How much funding are you or your organisation requesting for 2023-2024?

\$10 000

Q29. What community projects or operational services will these funds be used to deliver?

This will be used to promote and engage with the community more widely to pressure test our current plan and ensure there is broad acceptance of its direction. Once we have achieved this we would like to present the plan, along with all feedback, to council for its consideration to endorse it as a strategic document for Wanaka that will guide future business cases. The funding will enable advertising, drop in sessions, and a wider engagement plan.

Q30. How will this investment in your project or organisation be of value to the wider community?

Wanaka Town Centre is at a critical juncture. With 3 Parks now developing at pace it is more important than ever that the Heart of Wanaka has a clear competitive advantage that is reflected in its future development. We want to see the heart of our community continue to be a welcoming, accessible and thriving area. There is currently a significant risk that with the continued growth in residents and visitors, and competitive pressure from 3 parks, our centre by the lake will become less attractive to businesses which will mean it becomes less attractive to our community and visitors. Lake Wanaka is the jewel in our crown and we want to ensure the area around it is future focussed and truly reflects our communities values. This investment will raise the profile of this issue and enable us to continue to use our community networks to build a plan by the people, for the people. We want to prioritise people and place to guide us to a successful future.

Q31. How will this investment in your project or organisation support the outcomes of our community’s Vision Beyond 2050?

- Thriving people
- Living Te Ao Māori
- Opportunities for all
- Breathtaking creativity
- Deafening dawn chorus
- Zero carbon communities
- Disaster-defying resilience
- Pride in sharing our places

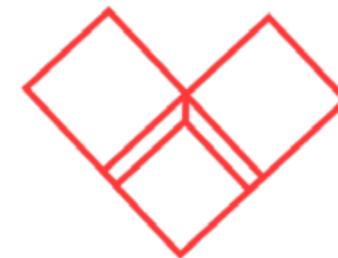

Q32. What other funding have you have applied for or confirmed for 2023-2024 to support this project or the operational services of your organisation?

None

Q33. Please upload any supporting documentation for your application here

Q34. I understand that all submissions and community grant applications will be treated as public information.

I understand

HEART OF WĀNAKA

DRAFT: A COMMUNITY DRIVEN TOWN CENTRE PLAN

14 MARCH 2023

Purpose of this Document

Purpose:

This document is the compilation of Wānaka’s communities’ aspirations for the integrated and staged development of its heart, the town centre.

This document is a guide for decision making – providing high level vision, principles, strategies and illustrated concept plans.

In addition to being a reference for development plans and reviews, this document will also identify projects, set priorities and indicate timelines

This is a living document and will be updated regularly.

Guide to this document:

1

Executive Summary - High Level

Vision - Where we want to get to in a nutshell
Principles - Guides to requirements for making decisions

Illustrative Plan - Broadly how all the pieces could come together

2

Context

Unique Town Characteristics
A Town in Transition
Engagement
Previous Town Plans

3

Strategies

Planning Strategies - Based on our Principles

4

Concept Plans

Illustrative High Level Ideas - the development for four sections of the town centre:

- A&P Showgrounds
- Pembroke Park
- Lismore Park
- Town

Implementation and Staged Delivery:
Short, medium and long term

Introduction

A Community Driven Town Centre Plan

Our Why?

A succession of Masterplan efforts over the last decade and no plan in currently in place and times have substantially changed in the last 3 years.

Our What?

A holistic plan that represents the communities aspirations, covering all aspects necessary to guide us, to coordinate integrated development.

Our Who?

The Wānaka Heart Steering Group

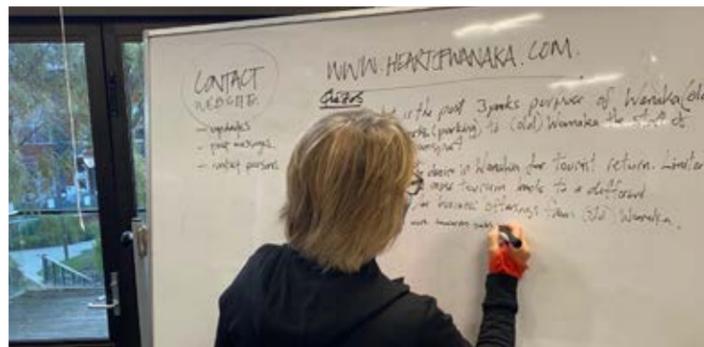

Our cross sector steering group working on a volunteer basis since 2021 is directing the production of a community supported plan, looking after the process, the consultation and over viewing the content. Reset Urban Design will be providing technical documentation, plans and report.

What area are we looking at?

The traditional town centre from Wānaka Station Park to Mount Aspiring College.

Goal

With community support the Heart of Wānaka Plan is endorsed by UCCB early 2023.

Introduction

Kāi Tahu - QLDC Treaty Partner

Kāi Tahu are the Iwi of the Lakes district, Wānaka first featured in the Waitaha Iwi oral tradition of the “Kā Puna Wai Karikari o Rākaihautū” which tells how the principal lakes of the Te Wai Pounamu (South Island) were dug by the founding ancestor Rākaihautū.

Around Lake Wānaka were a number of Pā, Kāika and Nohoaka. The biggest settlement in the Wānaka area was a Kāi Tahu Pā known as Take Kārara which was located in present day Roys Bay.

Kāi Tahu Whānui developed many trails throughout Te Wai Pounamu (South Island) linking settlements to on another and the mahika kai resources. These Pathways became the arteries of economic and social relationships.

The name “Wānaka” is a South Island variant of the word “Wānanga” which refers to ancient schools of learning.

As kaitiaki and mana whenua, Kāi Tahu’s contemporary presence in Wānaka centres on the wise use, restoration and protection of its natural and physical environment.

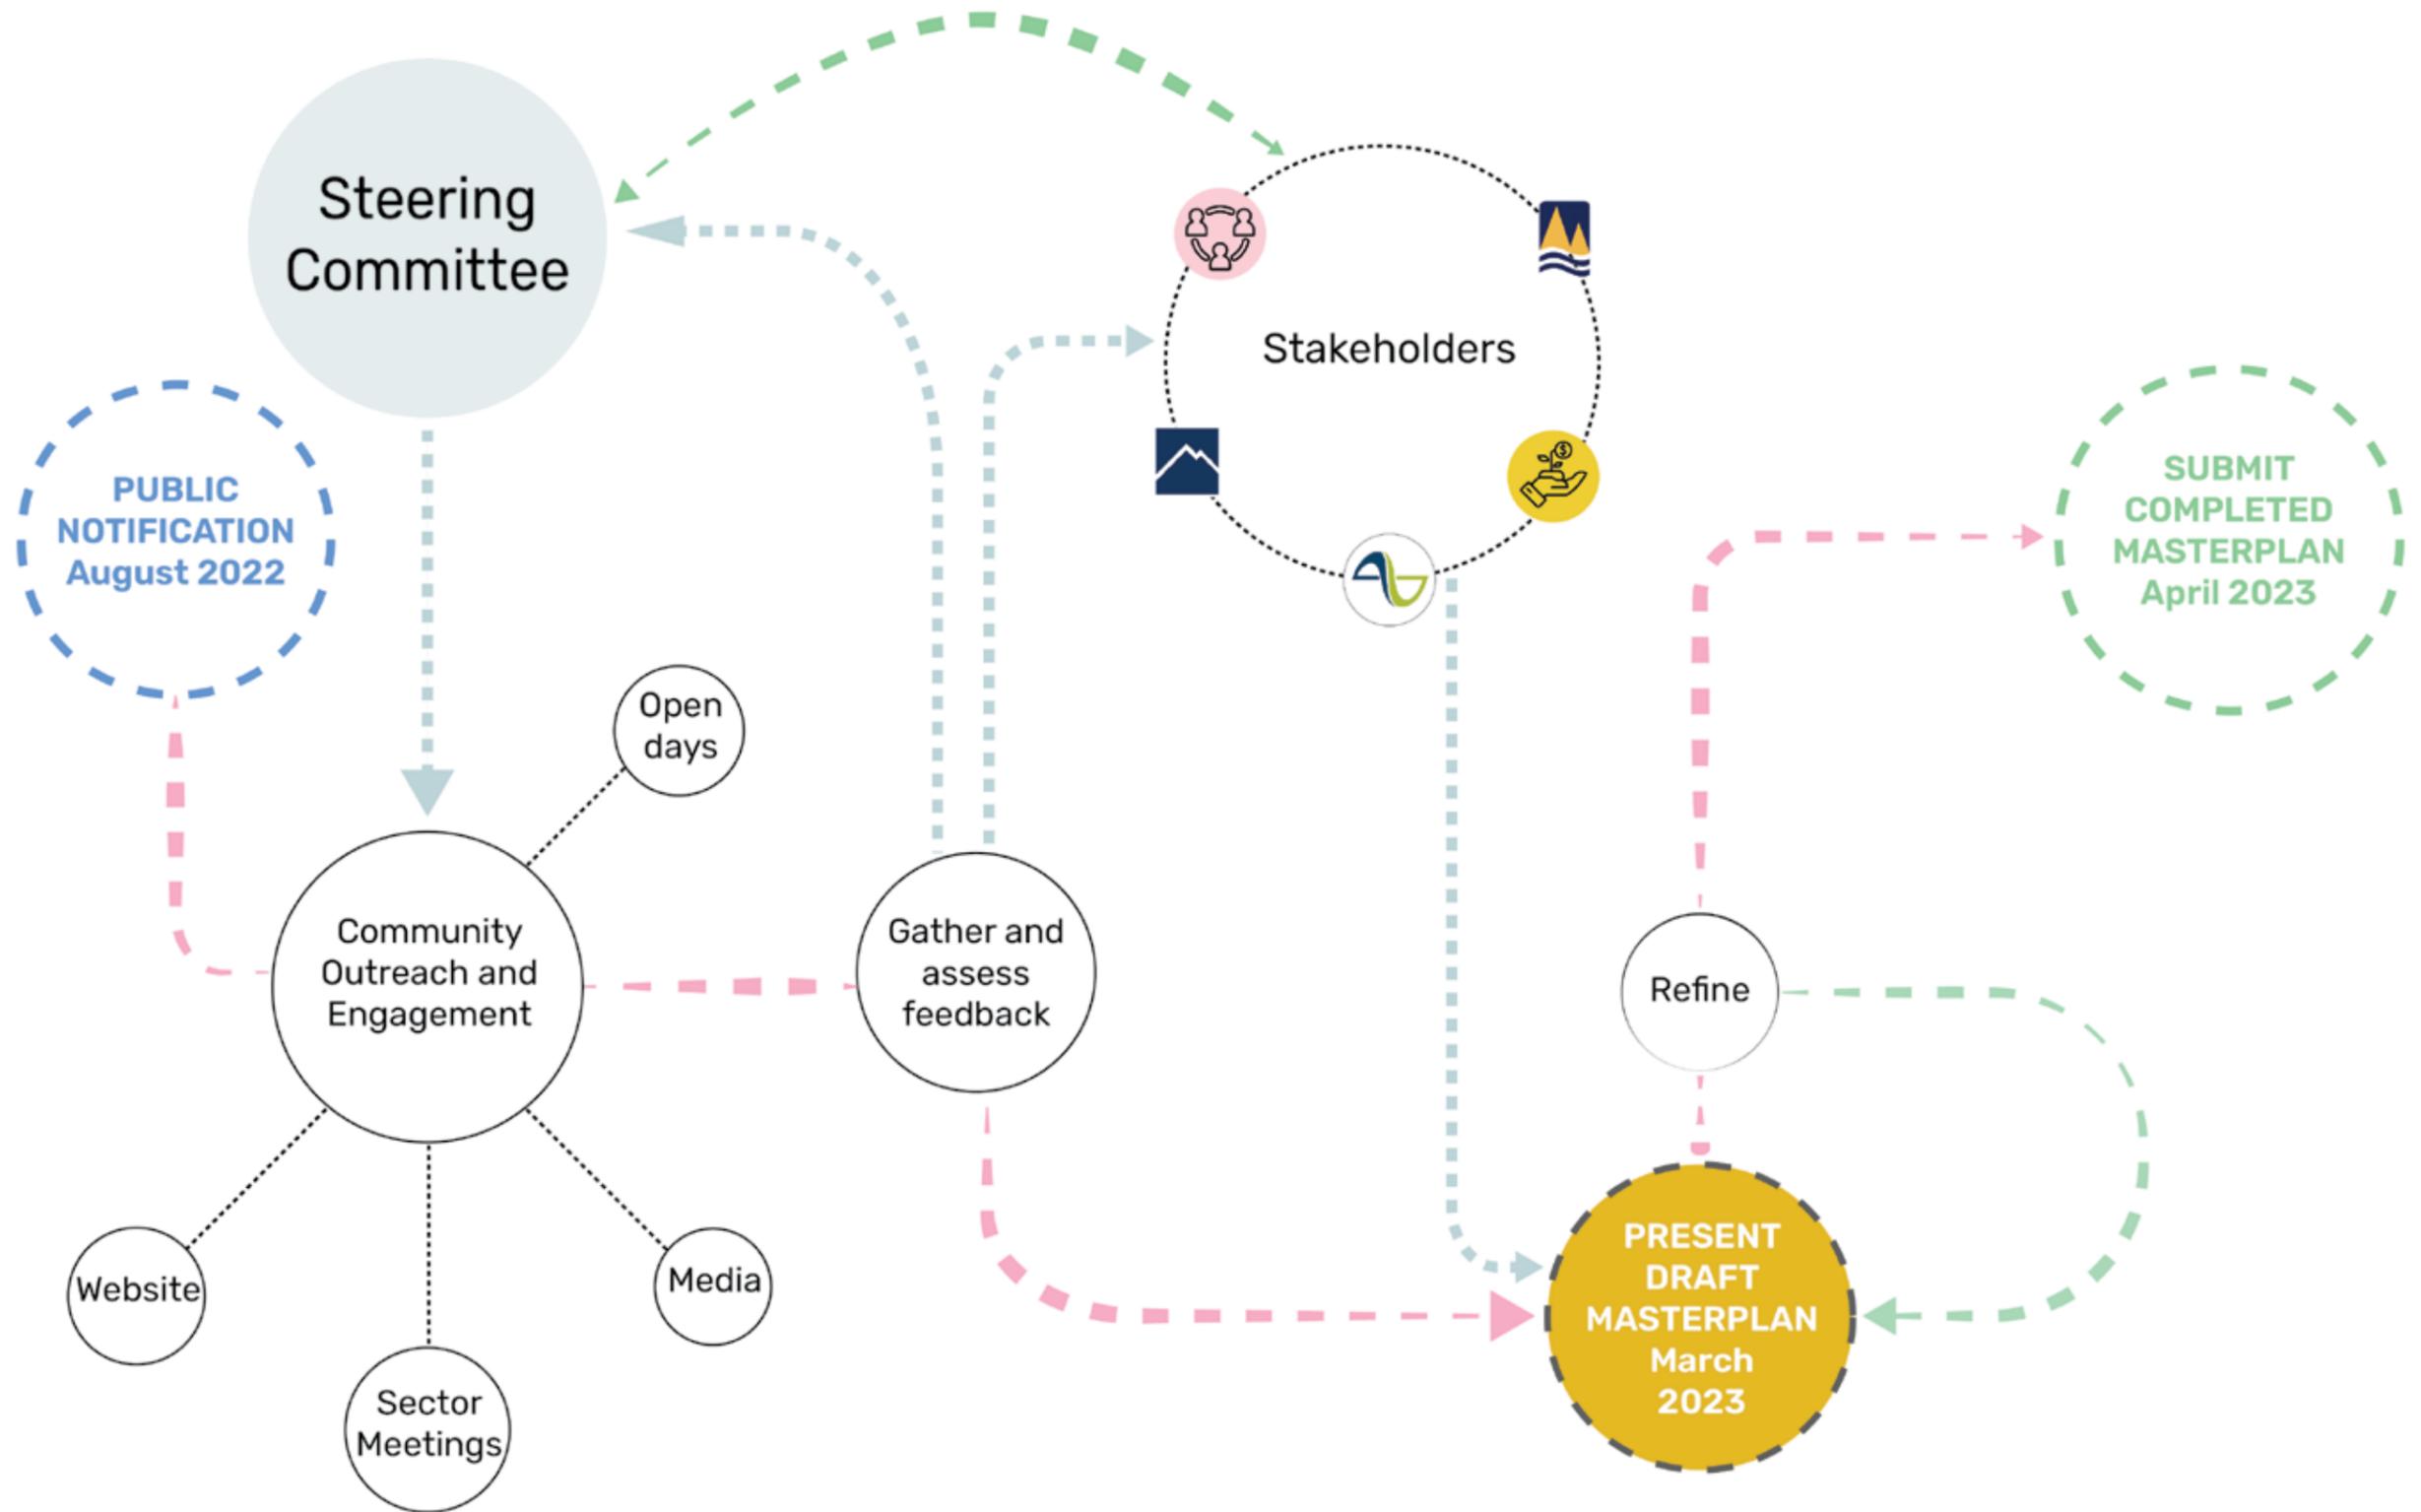

Consultancies Aukaha and Te Ao Marama together represent the seven kia tahu rūnaka that have recognised interests in Wānaka.

The integration of Kāi Tahu values should be woven through all principles and values. Whilst recognising that the Heart of Wānaka have not had the capacity to fully engage with mana whenua, the intent is that mana whenua should be engaged an be a part of developing the future plans.

Chief Huru's Memory Map, drawn in 1842, now etched into concrete paving on the Lake Wānaka waterfront

Engagement Strategy

1

Executive Summary

Vision and Principles

OUR COMPELLING VISION

“Your Heart of Wānaka - a welcoming and super healthy community led town centre beside our wonderful lake”

OUR GUIDING PRINCIPLES - HEALTHY & WELCOMING

Physical Setting
All relates well to Lake Wānaka

Ecology
Enhance ecologies and resilience

Movement
Safe and easy access for all

Open Space
Well provisioned open space

Culture
Celebrate local culture and heritage

Community
Ensure well being of our people

Built Form & Infrastructure
High quality & fit for purpose

Economy
Robust and creative economy

Principles and Key Outcomes - Summary

Physical Setting

- Remove cars from lakefront
- Shared paths along lakefront
- Install new wharfs

Ecology

- Enhance Bullock Creek
- Native plantings in parks and 'lake front'
 - Vegetative corridor network
- Agreed planting palette

Movement

- Active travel network
- Vehicle calmed streets
 - Safe pedestrian crossings
- Parking efficiency

Open Space

- Multi-functional
 - Event spaces
 - Walkways
 - More play space
- Greater access to parks
 - Retain openness

Culture

- Opportunities for recognising Kāi Tahu presence and values, integrated into the built form
 - Events
 - Artworks
- Performance centre
- Interpretive signage

Community

- Three wharves
- Safe streets - day and night
- Accessible community facilities
 - Gathering spaces

Built Form & Infrastructure

- Wastewater & storm water upgrade
 - Transitional streets
 - Development opportunities
- Design Review Panel

Economy

- Relocated produce markets
- Increased height limit
- Community gardens
 - Managed events
 - Greater density

Locator Key:

Scale: 1:3,000

A scenic landscape featuring a paved path that curves through a green field. A person is riding a bicycle on the path. In the background, there are rolling hills, a town, and mountains under a clear blue sky. A large red circle with the number '2' is overlaid on the left side of the image.

2 Context

Building on our Unique Wānaka Town Characteristics

Big Bay Setting & Contained Contour

Long Lake Edge

Small Shops, Low Rise Form and Civic Facilities

Upper & Lower Downtown

Central Bullock Creek

Extensive Flanking Green Open Space

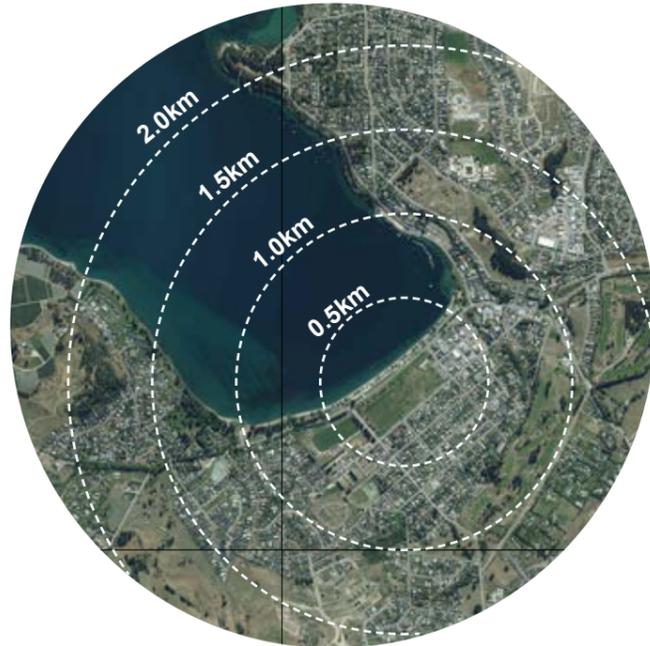

Hospitality Strip Along Lake Edge

Plentiful Planting

Wānaka Challenges

A Town in Transition

Drive to destination / Spread out urban extent

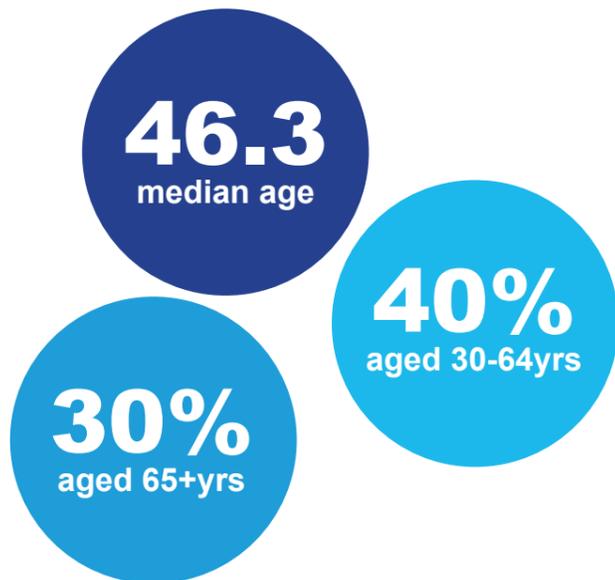

Low density built form

Large tourism & visitor component, 50% of houses are secondary holiday homes

Three Parks new complementary centre on periphery, large format

2018 Census Wanaka Central

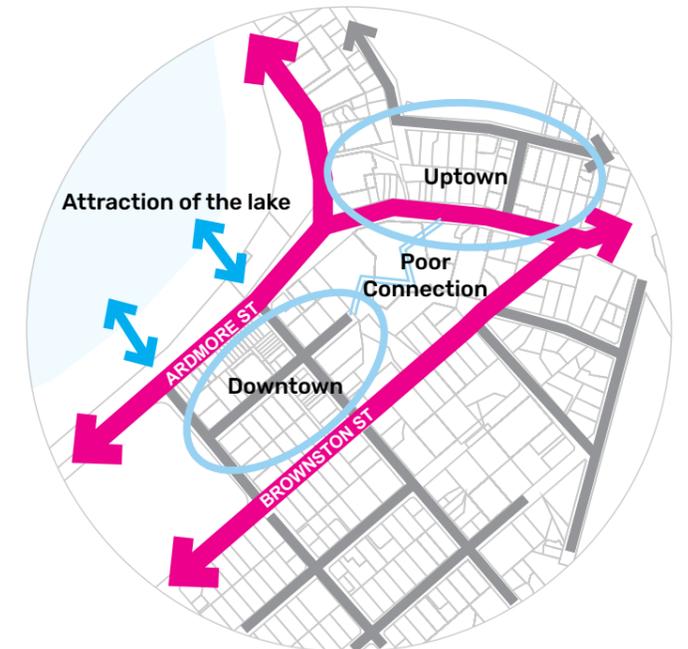

High aged/retired demographic & continued growth population

Vehicle dominated streets & tradition of car parks close to retail and commercial

Active travel and public transport in early stages

Big block town centre street layout - channels movement onto Ardmore and Brownston St

Engagement

A Key Element to the Heart of Wānaka

A Steering Group

Drawn from a community meeting in July 2021, our cross sector steering group working on a volunteer basis is directing the production of a community supported Plan, looking after the process, the consultation and over viewing the content. Local consultancy, Reset Urban Design providing technical documentation, plans and report.

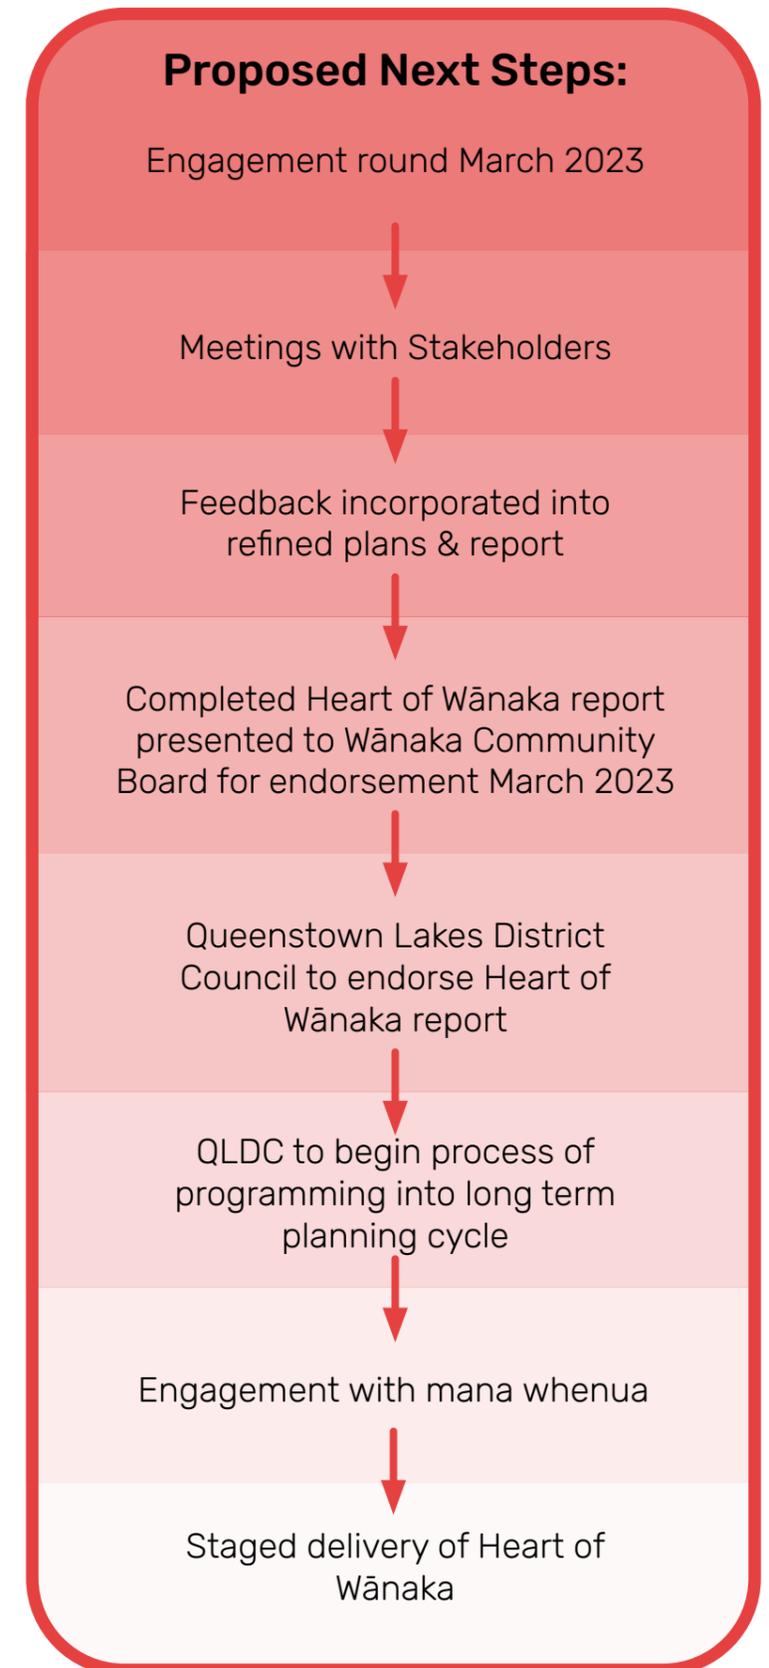

B Two Major Engagement Rounds - September 2022 & March 2023

- Website with information & updated plans
- Door to door in town centre
- Drop in sessions - Wānaka Events Centre, Community hub, Alberton, North Lake
- Media Releases - Otago Daily Times/Wānaka Sun, Messenger, Wānaka App

C Community Group Involvement

All of these groups were involved and they informed the development of Heart of Wānaka.

Community Engagement

September 2022 - Main Themes

Safe Pedestrian Movement

- Safe streets – tame the cars
- Walking access around parks
- Consider elderly

Enhanced Ecology

- Health of Lake critical
- Clean Bullock Creek
- Flood mitigation to be investigated

Considered Built Form & Infrastructure

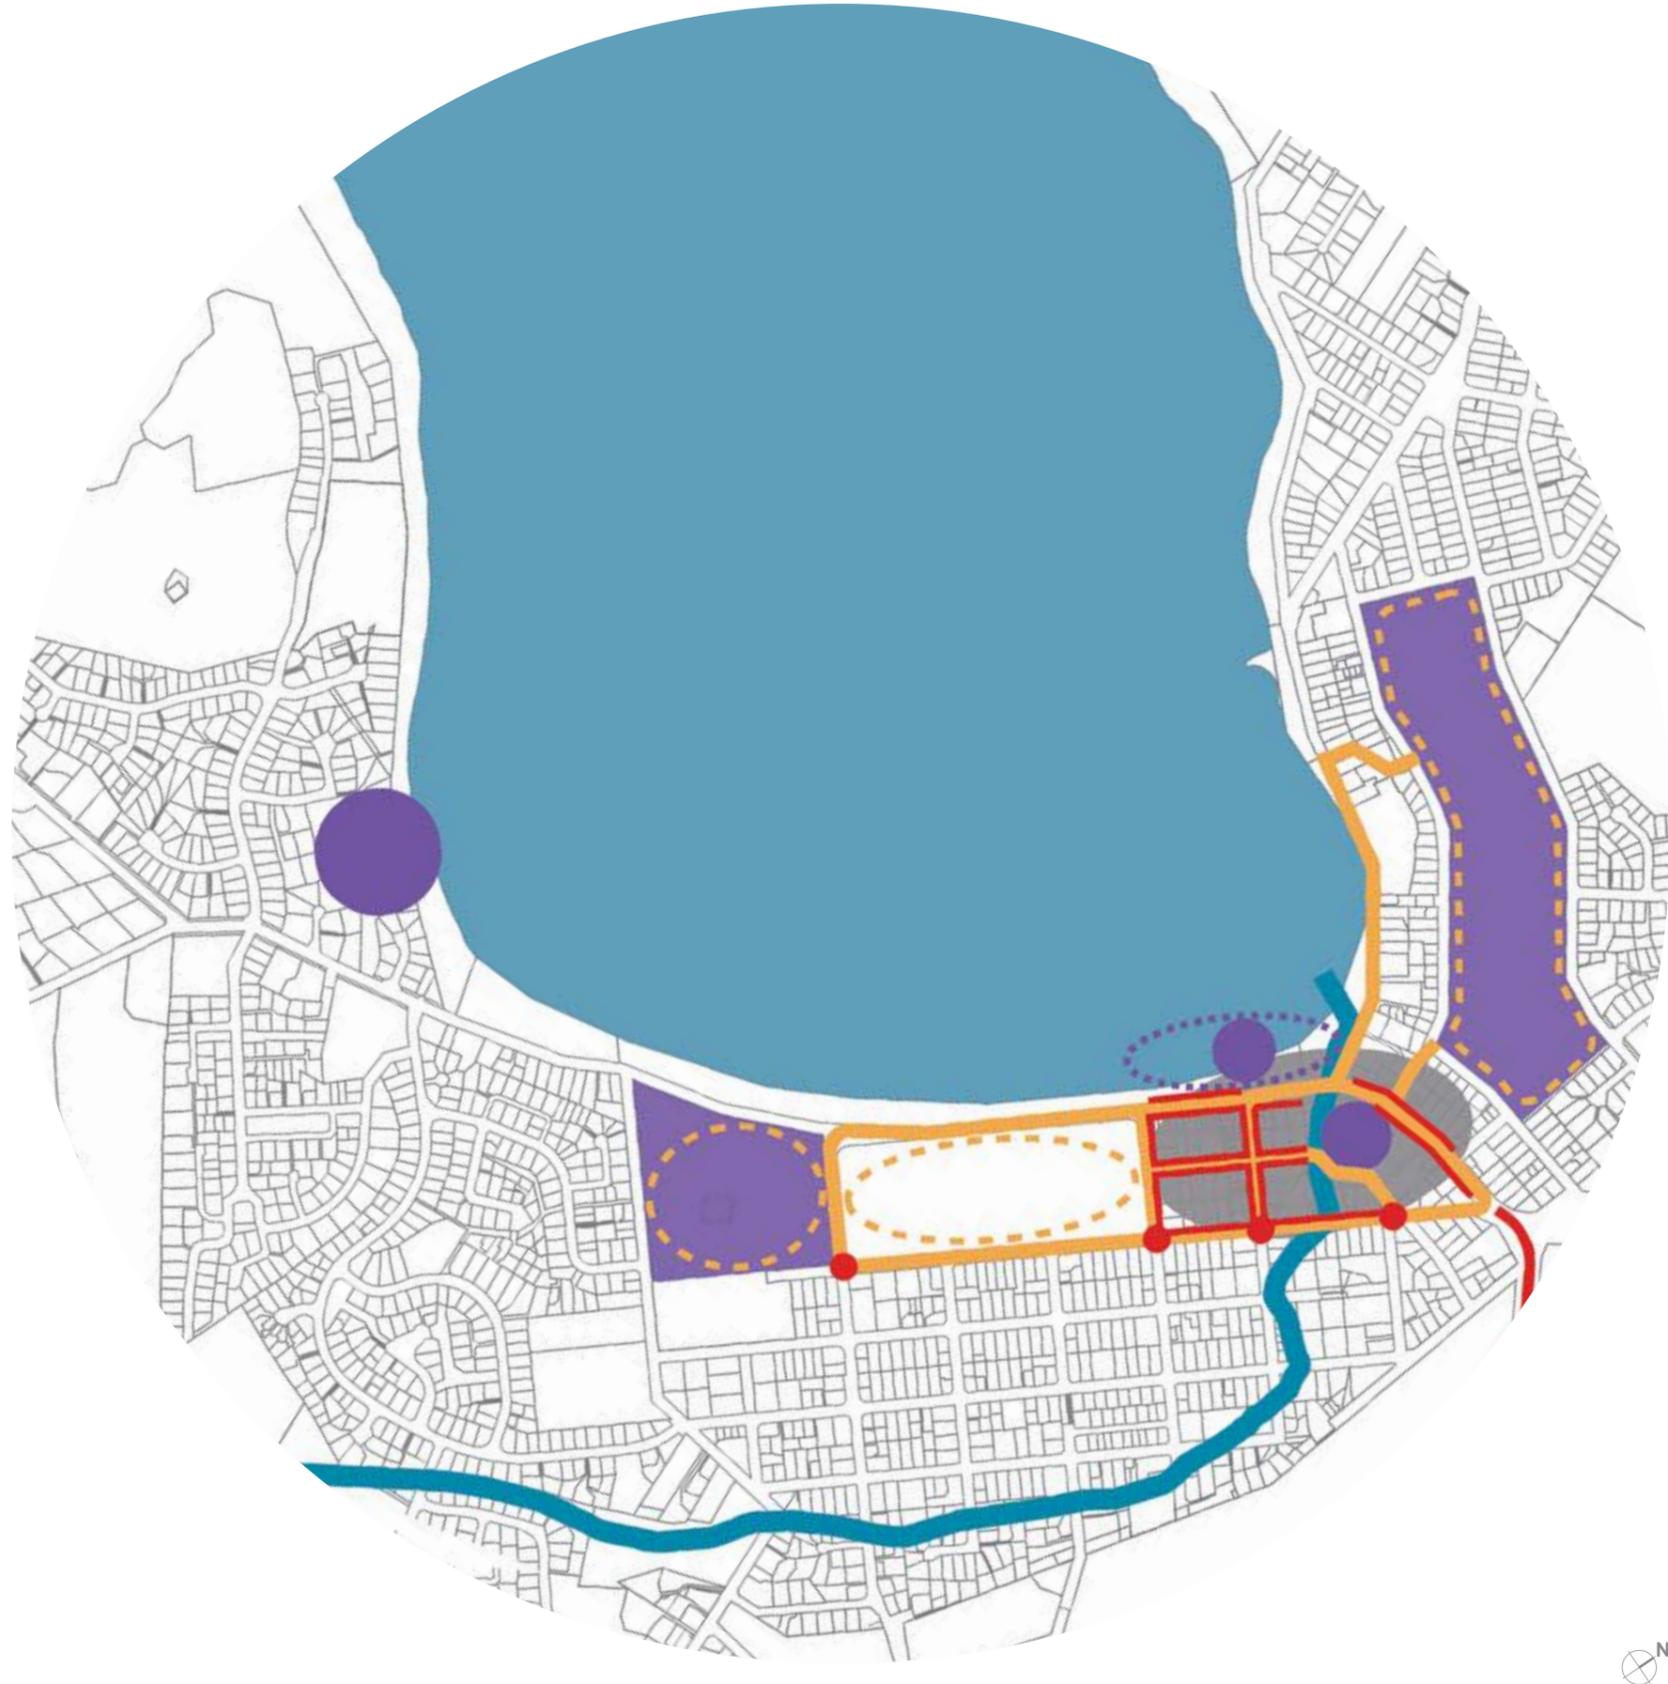

- Keep compact form
- Storm water upgrade
- Green star building standards
- Review planning controls

Improve Civic Facilities & Open Space

- Performing Arts centre in town
- Civic facilities to be better used and added to
- Complete the lakefront development plan
- Better access to all Parks
- A&P Show grounds could be more used
- Lismore Reserve has potential

Efficient Transport

- Roundabouts on Brownston
- Trial shuttle to 3 parks
- Keep vehicle circulation in the short term but limit and slow it down
- Optimise existing car parking
- Walk and cycleways to and through town centre

Drawing on the Previous Council Policy & Town Plans

2009

Wānaka Town Centre Strategy

- Response to rapid growth
- Integrate range of plans
 - Relocate parking
 - Create civic area
- Priority pedestrian connections

2011

Wānaka Town Centre Character Guideline

- Urban character
- Building design
- Streets, lanes and open spaces
- Urban design panel

2016

Wānaka Lakefront Development Plan

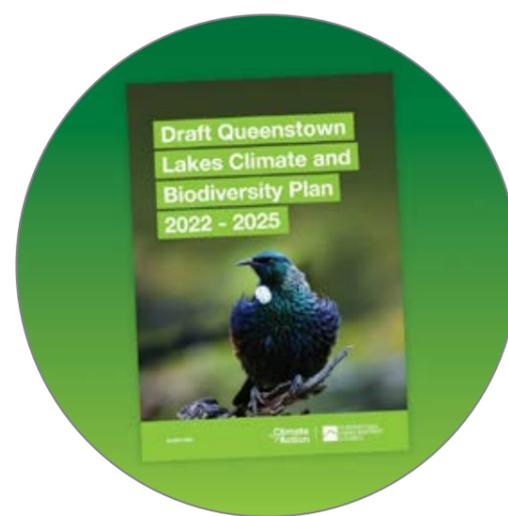

- Staged development
- Promote continuous pedestrian access
 - Enhancing ecology
 - Hosting a range of activities
- Enhancing presence of Kai Tahu

2019

Wānaka Town Centre Plan

- Bring the lakeside into the town centre
 - Connected Wānaka
 - Authentic Wānaka
 - A strong civic heart
- A people and community focused town centre

2022-2025

Queenstown Lakes Climate and Biodiversity Plan

- 6 Outcomes and actions
 - Low emission
- Flourishing natural environment

2021

The Queenstown Lakes Spatial Plan

- High Level
- Encourage greater density in town centre
 - Links to Three Parks

3

Strategies

Climate Change Strategy

Since 2020, the Queenstown Lakes District has issued a Climate & Biodiversity Plan in response to the climate emergency. Informed by United Nations sustainability goals and in alignment with national low emission and biodiversity initiatives. The Climate and Biodiversity Plan 2020 has 3 goals:

1. Biodiversity – Deafening dawn chorus
2. Adaption – Disaster defying resilience
3. Mitigation – Zero carbon communities

Seven outcomes each with a series of actions are the basis of achieving the three goals.

1. Leadership – QLDC demonstrates ambitious climate and biodiversity leadership
2. Transport – Our transport system is low-emission and better connected
3. Built – Our built environment is low-emission and resilient
4. Communities – Our communities are low-emission and climate resilient
5. Business – Low-emission businesses thrive
6. Environment – A flourishing natural environment
7. Bike Park

Land Use Provisions

STRATEGIES

- Encourages density & efficiency of land use
- Investigate possible increase of height further back from lakefront
- Revise and update current planning controls, activate urban design reviews
- Work to maximise public facilities
- Encourage quality infill and active edges to public thoroughfares

DESIRABLE OUTCOMES

Revise current town centre provisions & design guidelines (2011)

Possible Increase height - graduated to 13m (4m higher). Allows greater density, enables 3-4 storey & varied roof forms

Encourage laneway development & infill of development sites

Restrict large format commercial

Restart urban design review panel to review all development proposals in town centre

Greater civic cluster opening access to existing facilities & adding new public facilities

Open Space & Landscape Strategy

STRATEGIES

- Open up and make reserves usable for wider community
- Strong vegetation network that supports native ecologies
- Strong connections to lakefront
- Accommodate events and gatherings
- Provide a range of community amenities & recreational use to cater for local needs
- Blend of native and exotic trees and shrubs to reflect local character and seasonal feature
- Retain openness - restrict clutter and buildings
- Recognise existing and long term community group activities + use
- Agreed blended plant palette for entire town centre
- Development plans for all reserves
- Accommodate natural stormwater systems
- Create network of open space

DESIRABLE OUTCOMES

Open access - visual and physical

Circulation around and to lake

Multi-functional reserve facilities

Retain openness, restrict clutter and buildings

Retention of existing trees

Consistent plant palette framework

Movement Strategy

STRATEGIES

- Reducing vehicle dominance
- Promoting a step change to public transport & active travel
- Upgrade intersections along McDougall and Brownston
- Design attractive and healthy streets
- Safe streets and crossings - 30km/h speed limit within town centre
- Wānaka as a destination for visitors and surrounding districts
- Reducing short vehicle trips

DESIRABLE OUTCOMES

Clear legible directions - Key Wānaka nodes well connected with clear wayfinding signage

Linked safe & generous pedestrian zone

Network of active travel paths

Maintain vehicle access, circulation and prioritised parking

Flush surfacing allowing future flexibility of use, space and modes of transport

Public transport hub & stops - coaches & Intercity

Social & Cultural Strategy

STRATEGIES

- Establish a strong civic and commercial heart
- Provide spaces and places for community interactions and gatherings
- Celebrate cultural heritage
- Actively encourage the location of social & cultural facilities in the town centre
- Provide universal access to facilities

DESIRABLE OUTCOMES

Locate and access social facilities in the town centre

Open up & link existing facilities

Network of commissioned artworks

Recognise ongoing engagement and development with Kāi Tahu

Locate well provisioned market space

Streets able to be closed to traffic for events

Infrastructure Strategy

STRATEGIES

- Provide blue storm water management through on site soakage and natural water cycle, gives effect to Te Mana o te Wai
- Filter water to lake to ensure clean run off
- Upgrade piping and retention
- Ensure capacity for growth
- Communication network - state of the art
- Complete flood mitigation study

DESIRABLE OUTCOMES

Sustainable on site storm water

Flood resilience & emergency storage

Pipe network upgrades

Integrate storm water with parks planting and paths

State of the art communication

Event Management Strategy

STRATEGIES

- Wānaka is an event capital and hosts community & special events
- There is a need to ensure safety in gatherings
- Manage events to avoid damage and excessive clean up
- Upgrade lighting for events & sports activities
- Restrict leases on lakeside reserve to existing

DESIRABLE OUTCOMES

Define calendar of events

Demarcate town centre area - limit vehicle access

CCTV surveillance throughout town centre

Alcohol ban in public spaces

Spaces and streets able to be used for events & erection of stages

Clean up plan required for all events

Town Centre Car Parking Strategy

- Ensure parking is available for most in need to support local businesses
- Remove car parking on lakefront reserve
- Minor reduction of parking in streets to provide for street trees and more pedestrian crossings
- Provides more efficiency with free all day parking for workers in
- Parking strategy to provide efficiency and pricing to be a key tool to manage parking demand
- Edge of Lismore Park possible all day free worker car parking

Existing Parking Within the Town Centre

Existing Parking Total:

- 325 Street Car parking spaces
- 253 Off street car parking spaces
- 82 Lake front car parking spaces
- 8 Bus Parking Spaces

Total car parking spaces: 660

Total bus parking spaces: 8

Proposed Parking Plan

Proposed Parking Total:

- 276 Street car parking spaces
- 247 off street car parking
- 8 bus parking spaces
- + 43 Existing Hedditch Street parking (all day free worker parking)
- + 87 Added Hedditch Street parking (all day free worker parking)
- + 670sq meters of planted streetscape/rain gardens

Total car parking spaces: 653

Total bus parking spaces: 8

4

High Level Illustrative Concept Plans

A&P Showgrounds

Key Development Moves:

1. Relocation of entry road
2. Retain existing facilities and car parking
3. Removal of large pine shelter belt
4. Enhancing ecologies with new native and evergreen trees
5. New perimeter pathway
6. Feature destination to bookend the town centre (TBC)
7. Public fitness activity trail along perimeter
8. Safer connections to lakefront and Pembroke Park
9. Reviewing public access and activities in north section of campground
10. Layout to accommodate show activities through detailed design

Open up edge to lake and add trees

Event/Spectator Area

3m Wide Gravel/Hoggin Footpath

Feature Destination

Fitness Activity Trail

Pembroke Park

Key Development Moves:

1. Retain openness & playing fields
2. Enhancement of car park with planting and weekend market space
3. New nature playground
4. New basketball court to anchor skate park corner as youth zone
5. Enhancing ecologies with new native and evergreen trees
6. New perimeter pathway
7. Raised stage for events, exercise classes and informal public use
8. Picnic tables and seating
9. Safer connections to lakefront and town centre
10. Tree plan to identify existing & rationalise planting

3m Wide Gravel/Hoggin Footpath

Reclaimed Car Park with Hedges, Trees, Natural Drainage & Market Space

Nature Playground

Picnic Tables and Seating

Raised Stage

Lismore Park

Key Development Moves:

1. New obstacle course and flying fox
2. New quiet native garden
3. Enhancing ecologies with new native and evergreen trees
4. New perimeter pathway
5. Active travel path connection to M.A.C
6. Improved directional signage to lake front and town centre
7. Opportunities for public art
8. Picnic areas and seating
9. Safer connections to lakefront
10. Possible free all day car park

Obstacle Course and Flying Fox

Entry Marker/Public Art

Quiet Native Garden

3m Wide Gravel Path

Picnic Areas

Town Centre

Lower Ardmore/Stage 4 WLDP - Possible Outcomes

Key Strategies:

- Long held aspiration to better connect lakefront with the town centre
- Need to reduce car parking on reserve land
- Need for safer pedestrian connections
- Parking essential for hospitality strip
- Retention of some wind shelter planting required - groupings of trees to be retained
- Flood investigation study required
- Broad promenade and extend dining lane along hospitality strip
- Worker parking near by to be in place prior to any changes
- Two way vehicle circulation retained

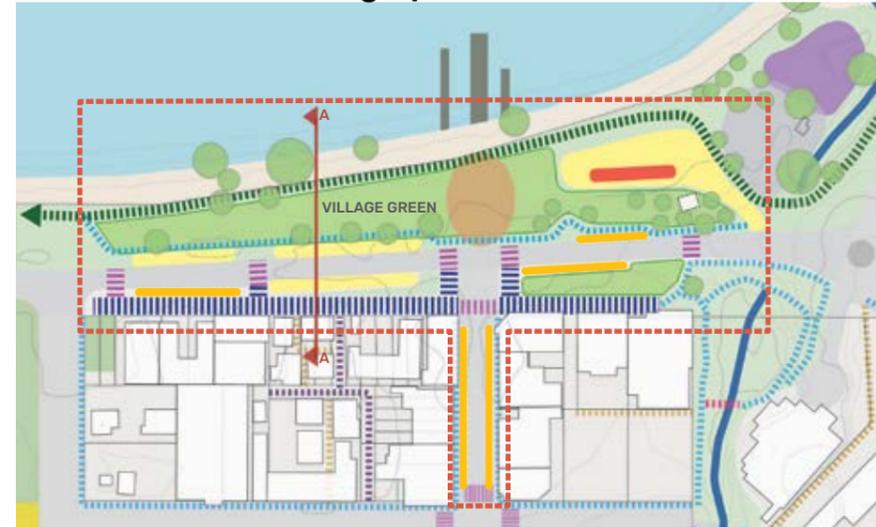

Existing Parking:

Lakefront - 82
 Lower Ardmore - 38
 Lower Helwick - 18
 Total: 138

Key:

-  Parallel Parking
-  Angled Parking

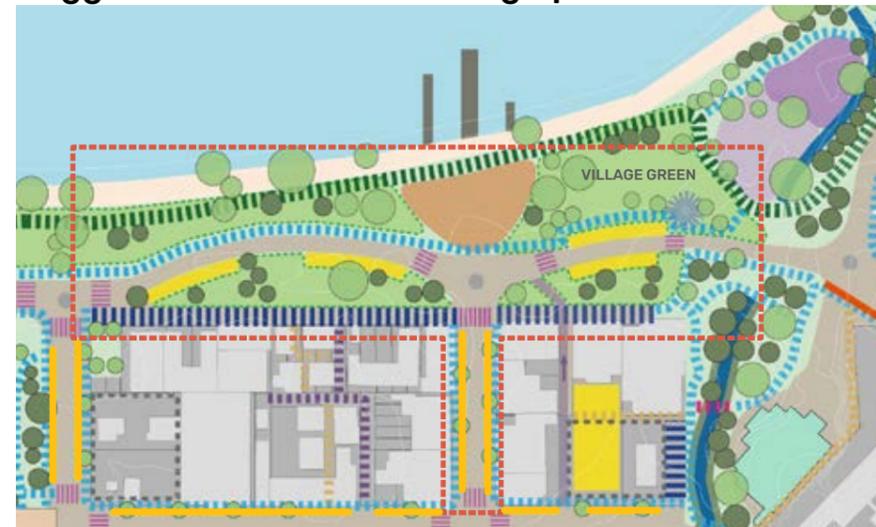

Minor Works - Parking Spaces #124

Moderate Works - Parking Spaces #101

Suggested Outcome - Parking Spaces #83

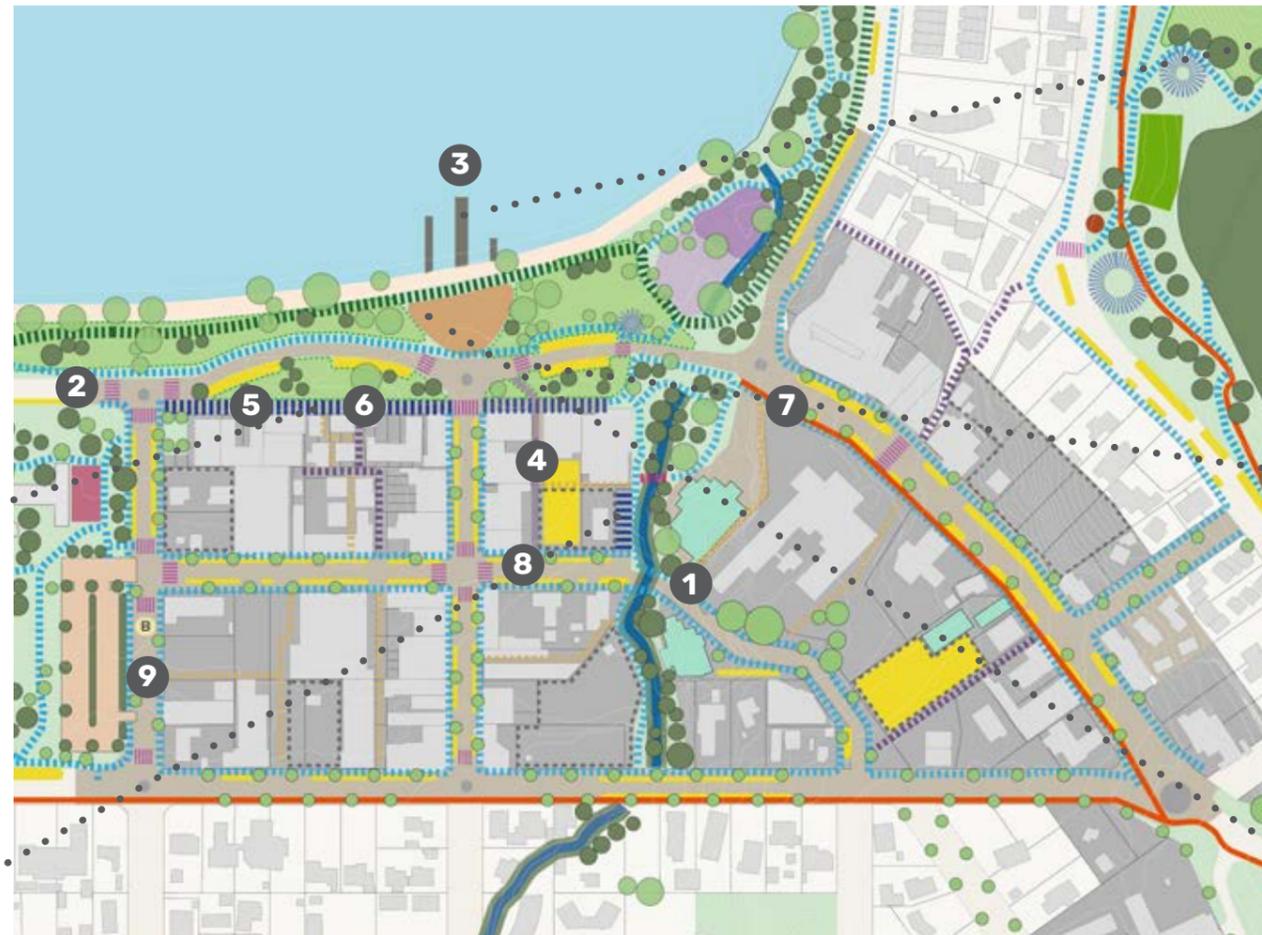

Pros	Cons
<ul style="list-style-type: none"> • Gain a village green & plaza • Broad dining lane • Retain some lake front parking & coach drop off • Low cost, use of existing road • Pedestrian crossing x5 	<ul style="list-style-type: none"> • Road dominates • Cars and buses still on lake front reserve • Removal of parking bays
<ul style="list-style-type: none"> • All lake front reserve parking removed • Lake front reserve maximised • Broad dining lane • Bigger plaza & village green • Shift bus hub to Dungarvon • Parking/drop off area remains in front of visitor center • Low cost - use existing road 	<ul style="list-style-type: none"> • Road dominates • Parking bay dominates northern area
<ul style="list-style-type: none"> • All lake front reserve parking removed • Lake front reserve maximised • Broad dining lane • Village Green on town edge • Bigger plaza • Shift bus hub to Dungarvon • Amenity space along dining lane • Unique integrated design 	<ul style="list-style-type: none"> • Road re-alignment cost • Loss of parking

Town Centre

Key Development Moves:

1. Creating a vibrant community heart
2. Allowing good, easy, and safe access for all
3. Connected to lakefront and new wharfs
4. Mixed use active streets and laneways
5. Continuous canopies encouraged along street edge
6. Outdoor seating & activated ground floors
7. Slow streets
8. Safe crossings on all intersections
9. New bus hub on Dungarvon

Planting Palette

Provided by workshop of Linda Joll, Arne Cleland, Kris from Te Kakano, Liz Buggs from Wanaka garden club, Prue Kane, Wai. The objective is to plan for a successful layered group plantings in the areas as identified. The planting palette has been created with the following principles:

- Create a strong vegetated network that increases bio diversity and habitat.
- Create corridors of native planting, particularly along waterways.
- Blend with exotic plants for scale, seasonality and town character.
- Don't want to see single trees, as underplanting and ground cover, help to conserve water and prevent weed growth.
- Swathes of drought tolerant plants, with feature trees, and raingardens made up of a mix of species selected by the group for their tolerance to the conditions of climate.
- Soil analysis would be required with a mix being developed by local provider waste busters.
- All plant material would be sourced locally and where possible provided by Te Kakano nursery in advance, to allow for feature trees to be grown on site, suited to local conditions.
- Management and irrigation for the establishment period will be essential.

Large Trees

Carpinus bet. 'Fastigiata'
European Hornbeam

Acer cappadocicum rubrum
Cappadocian Maple

Fuscospora cliffortioides
Tawhai rauriki

Plagianthus regius
Manatu

Pseudopanax crassifolius
Horoeka

Podocarpus laetus
Totara kotukutuku

Quercus palustris
Pin Oak (Exotic)

Quercus robur x petraea
English oak hybrid (Exotic)

Quercus cerris
Turkey Oak (Exotic)

Quercus afares
African Oak (Exotic)

Quercus ellipsoidalis
Northern pin oak (Exotic)

Sophora microphylla
Rauraha or Kowhai

Small Trees

Aristotelia fruticosa
Makomako/Wineberry

Acer sp. buergerianum
Trident Maple (Exotic)

Carmichaelia stevensonii
Tawao

Cordyline australis
Ti-kouka/Cabbage tree

Corokia cotoneaster
Korokio

Cotinus coggygria
Smoke Bush (Exotic)

Hebe stricta
Koromiko

Hoheria glabrata
Houhere

Hoheria lyallii
Houi

Kunzea serotina
Makahikatoa

Kunzea ericoides
Kanuka

Luma apiculata
Chilean Myrtle (Exotic)

Planting Palette

Shrubs & Tussocks

Astelia nervosa westland
Kakaha

Brachyglottis Dunedin
Hybrids (Exotic)

Cistus var.
Rock rose (Exotic)

Coprosma intertexta
Tatarakeke

Coprosma propinqua
Mingimingi

Coprosma virensces
Mingimingi

Cortaderia richardii
Toetoe

Griselinia 'canterbury'
Kapuka

Lavender species

Olearia nummulariifolia
Hard-leaved Tree Daisy

Olearia macrodonta
Arorangi

Phormium cookianum
hybrids - Wharariki

Phormium tenax
Harakeke/Flax

Pittosporum tenuifolium
'Golf Ball' - Kohuhu

Groundcovers & Grasses

Acaema buchananii
Piri piri/Bidibidi

Berginia cordifolia
Heartleaf bergenia (Exotic)

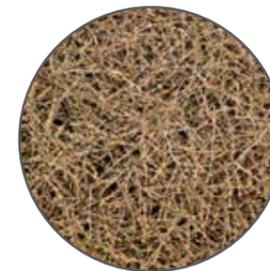

Calamagrostis acutiflora
overdam (Exotic)

Carex albula
White Sedge

Carex testacea
NZ hair sedge

Coprosma brunnea
Hybrid mingimingi

Coprosma cheesemanii
Hybrid mingimingi

Coprosma brunnea
dunstan blue

Muehlenbeckia astonii
Shrubby tororaro

Muehlenbeckia axillaris
Pohuehue

Pimelea prostrata
Pinatoro

Poa colensoi
Blue tussock

Poa cita
Silver tussock

Rosmarinus varieties
Exotic Rosemary

Raoulia haastii
Scab weed

Thymus species (Exotic)

Staging Delivery

- Town centre is a framework that provides a structure for the future
- Takes a long term approach, is robust and resilient to future changes
- Supports integrated, high quality, robust development
- Allows for further detail development
- Promotes step changes in land use and movement
- Funding to be secured through a range of sources including reserve and development contributions, land sales, Waka Kotahi funding, central government tourism funds and rates contributions

Short Term Deliverables

1-3 years

- 1 Pembroke Park upgrade
- 2 A&P Showgrounds upgrade
- 3 Stoney Creek car park implementation
- 4 Stage 5 WLDP implementation
- 5 Parking strategy implementation
- 6 Flood mitigation investigation study
- 7 Review of planning controls & design
- 8 Re-establishment of urban design review panel
- 9 Detailed development plans prepared for all reserves

Medium Term Deliverables

3-10 years

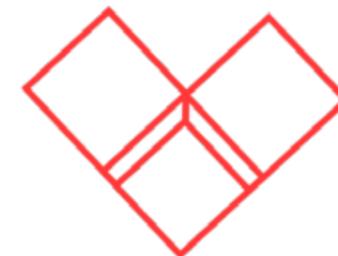

- 1 Brownston roundabouts
- 2 Dungarvon, Helwick and Dunmore upgrades
- 3 Lismore Park upgrades
- 4 Stage 4 WLDP implementation
- 5 All day parking area
- 6 New wharves
- 7 New bus hub on Dungarvon Street

Long Term Deliverables

10-20 years

- 1 Upper Ardmore Street upgrades
- 2 New Street
- 3 Wānaka Station Park upgrade
- 4 Civic facilities
